

SD MEANDERED LAKES LIST 2006-updated August 31, 2017

This list was compiled by reviewing original survey plats from the State Archives.

This list is not to be used as a comprehensive list or for distribution as a complete list.

This is not an official state list of meandered lakes.

COUNTY	LAKE NAME	MEANDER	OHWM	MEASURED	LEGAL LOCATION

OHWM - Ordinary High Water Mark, is a legally defined elevation around a lake delineated by evidence of erosion, soil characteristics and vegetation occurring under ordinary and continuous conditions of lake levels. The Water Management Board may establish the OHWM, pursuant to authority granted in South Dakota Codified Law, Chapter 43-17.

yes - Denotes an OHWM has been legally established by the Water Management Board.

MEASURED - Each Spring and Fall, SD DENR measures the surface elevation of approximately 150 natural lakes in South Dakota.

no* - Refers to lakes that have been measured by SD DENR but are no longer measured due to climatological or logistical reasons.

These lake elevations measurements, in feet mean sea level, can be viewed at: <https://apps.sd.gov/NR65LakeInfo/public.aspx>

Special note: Highland Lake in Brule Co. : The original plat map and survey show a meandered lake in Sections 6, 7, and 8. The actual lake is located in Sections 7, 17, and 18. All lands in these sections are deeded as private property, including lands below the meander line survey and the bed of the actual lake.
