

OTHER POWER DRIVEN MOBILITY DEVICE USE

Division of Parks and Recreation Policy

Effective: 05-15-11

PURPOSE STATEMENT

The Division of Parks and Recreation establishes policy on the implementation for the use of Other Power Driven Mobility Devices (OPDMD) on designated non-motorized trails on lands owned and managed by the Division of Parks and Recreation.

POLICY REQUIREMENTS

On March 15, 2011 the Department of Justice (DOJ) revised rules allowing Other Power-Driven Mobility Devices (OPDMD) to be used by individuals with mobility disabilities. Under the American with Disabilities Act (ADA) Title II this DOJ rule applies to trails on State or local government lands. Examples of OPDMD are golf carts, ATV's and Segway scooters.

The amended law states "A public entity shall make reasonable modifications in its policies, practices, or procedures to permit the use of other power-driven mobility devices by individuals with mobility disabilities, unless the public entity can demonstrate that the class of other power-driven mobility devices cannot be operated in accordance with legitimate safety requirements that the public entity has adopted pursuant to § 35.130(h)."

In order to comply with the revised law and effectively address the legitimate needs of people with mobility disabilities, while protecting the fundamental nature of the Division of Parks and Recreation's mission and services, the Division has adopted the following policy in regard to the allowable use of OPDMD on the Division of Parks and Recreation lands and trails.

OPDMD may be used on lands owned or managed by the Division of Parks and Recreation under the following conditions:

- A. Evidence of a Mobility Disability – Unless otherwise authorized by the Division of Parks and Recreation, the use of OPDMD on Division lands is restricted to people with a mobility disability as defined in §35.104 of ADA Part 35 (Title II)-**NONDISCRIMINATION ON THE BASIS OF DISABILITY IN STATE AND LOCAL GOVERNMENT SERVICES**. All users of OPDMD on Division lands are required to provide credible assurance of a mobility disability by display of a State-issued disability parking placard or card on the OPDMD, or other valid permit issued by the Division. In lieu of a valid, State-issued disability parking placard or card, or State-issued proof of disability, a public entity shall accept as a credible assurance a verbal representation, not contradicted by observable fact, that the other power-driven mobility device is being used for a mobility disability.

- B. Types of OPDMD allowed for use by persons with mobility disabilities
- Passenger vehicles, pickups, ATV's, UTV's, motorcycles, and gas-powered golf carts are not considered allowable OPDMD for any application on Division lands.
 - Segway scooters are allowable OPDMD on trails classified as Category A & B by the Division of Parks and Recreation.
 - Electric golf carts are allowable OPDMD on trails classified as Category A only.
 - No type of OPDMD are allowable on trails classified as Category C.

- C. Use of OPDMD
- No OPDMD is allowed to travel faster than 5mph
 - No OPDMD is allowed to overtake another trail user unless that trail user yields to the OPDMD operator.

D. Notification

Notification of allowable OPDMD use will be posted on the Department of Game, Fish and Parks website, and be available at all park offices.

E. Trail Classification Criteria

Category A

- Surface is concrete, asphalt or compacted material
AND
- Maintained trail surface width is 8' or greater
AND
- Grades range from 0-5%
AND
- Trail is largely constructed on grade, with minimal side slopes OR there is at least two feet of shoulder on each side
AND
- Sight distances are generally greater than 50'

Category B

- Maintained trail surface width is 4'-8' and surface can be asphalt or compacted material
- Trail is constructed on a raised grade, has no shoulders, and cross slopes exceed 12:1
- Sight distances less than 50' are common.
- Overall trail is impacted by multiple barriers (gates) that restrict width to less than 40"

Category C

- Surface is primarily native soil or grass
OR
- Trail segment has several grade separations greater than 4" in height
OR
- Maintained trail width is single track, less than 48"
OR

- Grades range are greater than 5%

Note: A trail classification may be lowered based upon high level of use that produces additional safety risks.

F. Trail Classifications
