Doug Backlund
Database Manager/Biologist
SD GF&P

Mr. Backlund,

Here are some photos from the Sioux Falls YMCA Leif Ericson Wildlife Diversity Grant Project. I believe you received a set of the nature cards already. We had a very good survival rate regarding the plantings that were planted this spring. We are working with the Minnehaha Conservation District so that replacements may be ordered for the spring of 2003 for the few plantings that did not survive. The Sioux Falls YMCA thanks the state of South Dakota and the Game Fish and Parks for their gift to the YMCA Camping program. It will allow the campers to experience the great outdoors for years to come in the heart of Sioux Falls.

Sincerely,

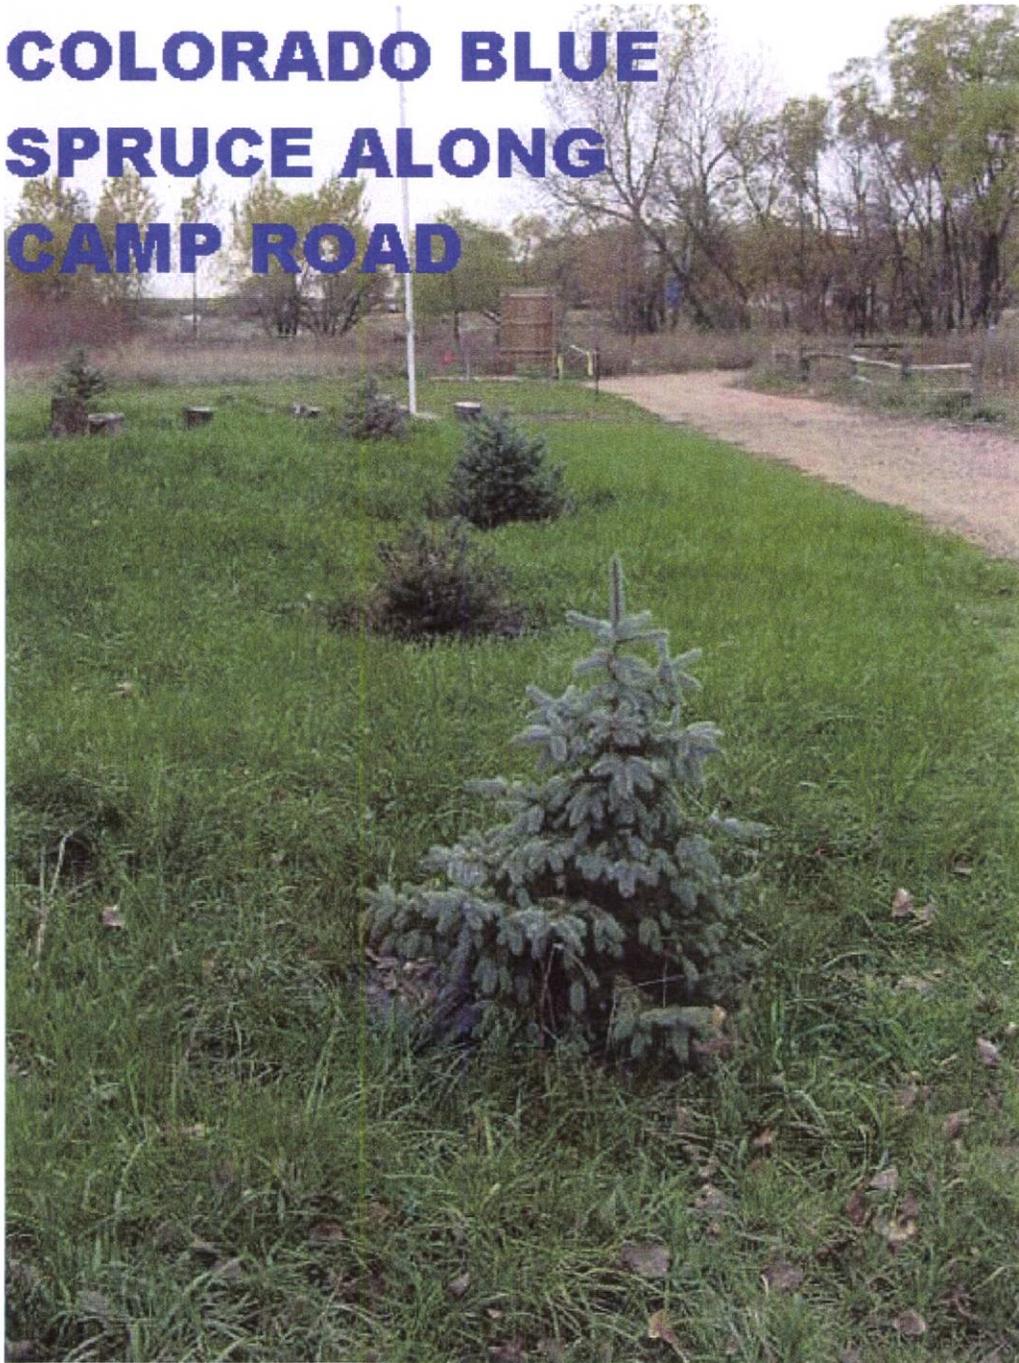

Pat Murphy
Assistant YMCA Camp Director

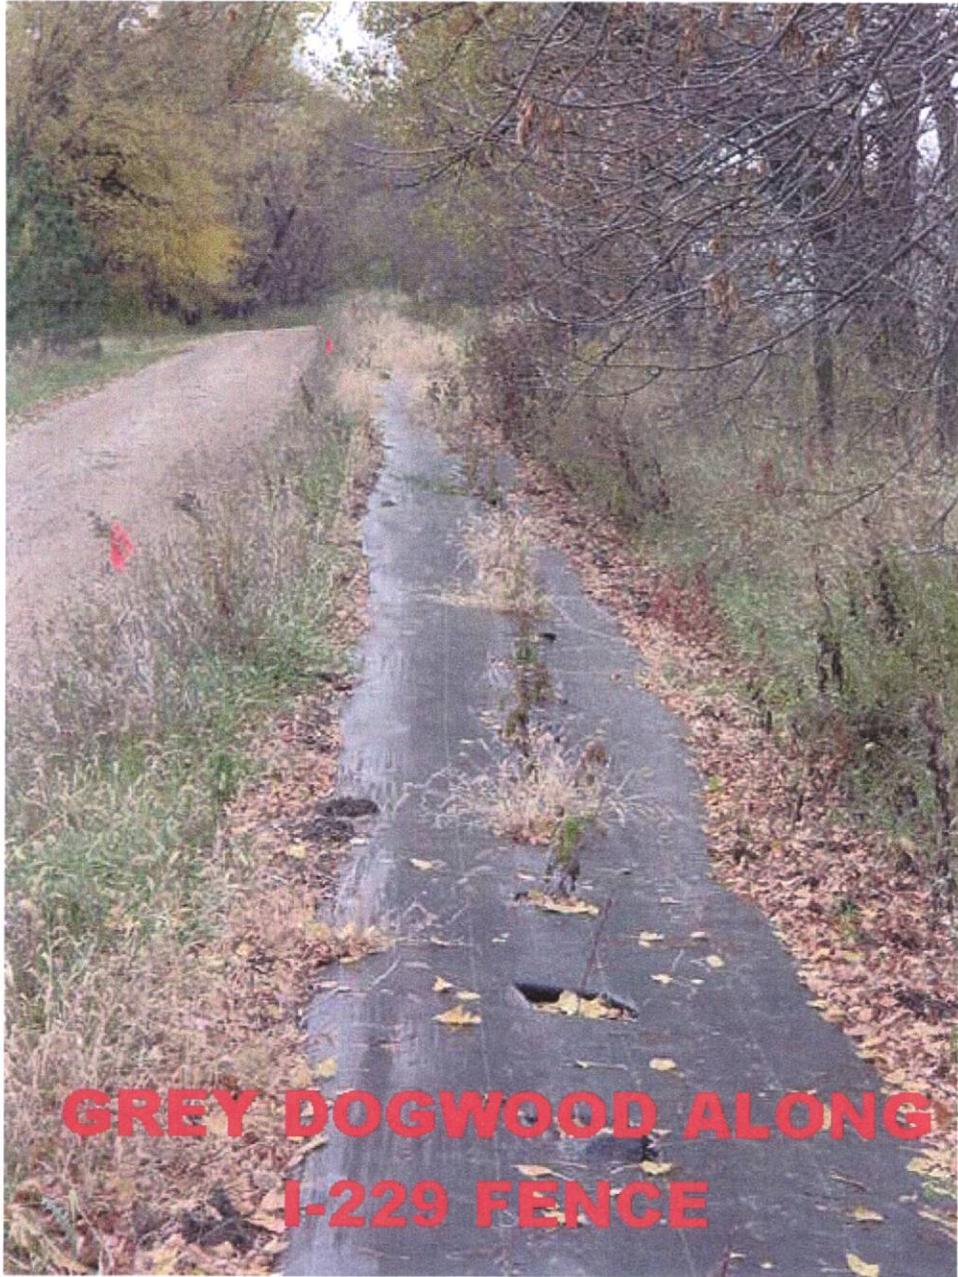

The Experience Will Last A Lifetime!
