

1. Historical Operating Data

To help in preparing financial projections, would SDGFP be willing to provide high-level operating benchmarks, such as approximate direct expense and fixed expense percentages relative to gross receipts, either for the overall operation or by major department?

Bidders must do their own due diligence to make reasonable financial projections based on their experience as well as industry standards. SDGFP will not provide historical expense ratios that are specific and proprietary to the current operator.

2. Facility Condition Assessment

Can SDGFP provide the facility condition assessment completed for the concession facilities, or a summary of its findings, to assist offerors in preparing proposals?

The Condition Assessment (CA) was completed in early 2026 by an independent third party. The 5.5 percent Component Renewal Reserve (CRR) fund contract requirement was derived based on the findings of the CA and SDGFP's internal estimates of future contract revenue over the ten-year term and is intended for use to replace building systems (e.g., roof, HVAC) over the contract term. We will not be sharing the CA in detail at this juncture, but we would like to remind Offerors that the CRR fund shall be used for component renewal projects only. Routine and preventative maintenance activities may not be funded by these reserve funds. Further, the contract will not allow a Concessionaire to fund capital improvement projects with CRR funds. Additionally, the CA did not reveal significant deferred maintenance, and SDGFP has been collaborating with the current operator to cure all identified minor deficiencies before the end of the current contract term.

3. Personal Property Inventory

Can SDGFP provide the personal property inventory and the valuation analysis used to determine the personal property value referenced in the prospectus?

The list of items included in the personal property inventory and valuation analysis has been provided in an addendum to the solicitation. Individual item value estimates, however, will not be provided. The 3.4 percent personal property reserve requirement was based on the life cycle analysis and replacement cost new (RCN) estimates as of the start of the new contract.

4. Lodging Utilization Calculations

The prospectus references historical lodging utilization, but operating seasons vary across properties and unit types. Can SDGFP confirm the number of available lodging units and operating nights used to calculate the occupancy/utilization figures?

The number of annual available room nights for each lodge is provided in the excel workbook related to selection factor 4, and room types/counts are shown in the Business Opportunity.

5. Statement of Values

It would be helpful for us to obtain a Statement of Values for the current insurance program, specifically for:

- Real Property
- Personal Property
- Business Income

Insurance requirements specific to the contract are included in section 13 of the Draft Contract.

- Real Property- Section 13 (b) (vi) states that the Concessionaire is only responsible to insure Concessionaire Facilities and Exhibit 2A to the Draft Contract lists the facilities designated as Concessionaire Facilities and the recent appraised value for those facilities.
- Personal Property- The list of items included in the personal property inventory and valuation analysis has been provided in an addendum to the solicitation. This valuation reflects Fair Market Value (FMV) of the personal property inventory as well as Replacement Cost New (RCN).

6. Page Limitations

In reviewing the Custer State Park Resorts Prospectus, our team noticed that the following selection factors in the proposal package do not have page limits.

- Selection Factor 2C- 3 pages
- Selection Factor 3B- 3 pages
- Selection Factor 4- No page limitations. Please use the provided excel template

7. Page Limitations

Selection Factor parts 2C and 3B do not have separate page limitations unless I'm missing it elsewhere, can you please tell me what the page limits are for those sub-sections?

See answer above.

8. Page Limitations

If the Selection Factor or Subfactor does not specify the number of pages allowed, is it safe to assume that there isn't a maximum number of pages allowed?

See answer above.

9. Funding of Capital Projects

How are expansions and building additions typically funded? Is this done through a capital/building fund paid into by the concessionaire, or handled differently?

See answer to question #6. The CRR fund paid into by the Concessionaire is to be used for component renewal projects only. Agreed upon expansions or building additions would be funded by SDGFP.

10. Employee Housing

What housing options are available outside of the Peter Norbeck Outdoor Education Center for staff?

The Peter Norbeck Outdoor Education Center is not part of the Contract land assignment. If you mean the Bison Center, there is no employee housing in that area. The prospectus details all employee housing available to the Concessionaire on page 19.

11. Rate Administration

Will the concessionaire have the ability to set a rate range for each resort, or is pricing more tightly controlled by the state?

Section 4 of the Concession Agreement states “All rates, fees and prices charged the public by Concessionaire must be reasonable and comparable to the fees, rates and charges charged for similar accommodations, facilities, services and merchandise in the region or outside the region if similar accommodations, facilities, services and merchandise are not provided in the region. All rates and prices for accommodations, facilities, services, and merchandise shall be clearly posted or marked.” The State does not control rates.

Section 2 of the Exhibit B to the draft concession agreement details the requirements to report rates to SDGFP.

12. Staffing

For the Dude Ranch operations, where is staffing typically sourced from?

Offerors must do their due diligence to ensure the stable operations are adequately staffed to provide minimum guest services dictated by the draft concession agreement. Also, as indicated in the prospectus, Offerors will need to procure grazing land outside the Park boundaries to keep the number of horses required. It is the Concessionaire’s responsibility to recruit qualified staff and to provide appropriate training to ensure guest safety, high quality visitor experience, and best care for livestock. SDGFP will play no role in recruitment, approval, or hiring of resort staff.

13. I have a question regarding 3.A. Operational Experience and the last bullet point- Reference and contact information.

1. Can you please clarify what you are requesting for reference and contact information? Internal from each facility?
2. Or just a list of professional references?
3. Does this fall within the 3 page maximum?

SDGFP is seeking professional references for the experience Offerors choose to highlight in their proposals. Yes, this information should be included within the allotted three pages (maximum) to answer 3.A.

14. How old are the fuel tanks?

The Blue Bell Store fuel tank was installed in 1991, and the tank at Coolidge Store was installed in 1988. Both tanks were last inspected during 2024. SDGFP bears the responsibility for replacing underground fuel tanks; this would not be a responsibility of the Concessionaire.

15. How many Fuel Pumps are there?

There is one single pump at Coolidge Store and one dual pump at Blue Bell Store.

16. Please provide a full list of key recurring events/approximate dates.

Three major annual events are recurring:

- Open House Weekend- Weekend prior to Memorial Day Friday-Sunday
- Sturgis Motorcycle Rally – Starts the first Friday in August through the following Sunday
- Round Up and Arts Festival- last Thursday in September through Saturday

17. Please provide the underlying monthly visitation data on page 10 of the Business Opportunity document

See below:

3 Year Monthly Visitation

2024	Visitation	2023	Visitation	2022	Visitation
January	50827	January	49794	January	48463
February	55026	February	49146	February	46292
March	78547	March	62457	March	69380
April	105274	April	95458	April	84941
May	232577	May	220097	May	208624
June	383509	June	366132	June	376073
July	422637	July	426110	July	422739
August	325428	August	306643	August	313325
September	344178	September	332078	September	324199
October	175741	October	153047	October	170074
November	65172	November	63636	November	58093
December	56920	December	56146	December	43085
Total	2295836	Total	2180744	Total	2165288

18. Please provide 2023 revenues by department.

Please see table below with 2023 column added.

ALL UNITS	2023	2024	2025
Lodging	\$8,038,000	\$8,591,000	\$9,142,000
Food and Beverage	\$5,405,000	\$5,898,000	\$6,266,000
Retail	\$4,593,000	\$5,293,000	\$5,671,000
Jeep Tours	\$1,272,000	\$1,677,000	\$1,609,000
Stables	\$477,000	\$519,000	\$595,000
Vending/Other	\$198,000	\$219,000	\$116,000
TOTAL	\$19,983,000	\$22,197,000	\$23,399,000

19. Please provide revenue by operating unit for 2024/2025 as shown on page 27 of the Business Opportunity document i.e. please provide revenue by department for each (State Game Lodge lodging revenue, State Game Lodge F&B revenue, Legion Lake Lodge lodging revenue, Legion Lake F&B revenue etc.).

Historical detail for periods prior to the new contract projections is proprietary to the incumbent. However, projections are based on historical trends.

20. Please provide historical occupancy data by lodge for 2024 and 2025.

	2023	2024	2025
State Game Lodge			
Occupancy %	57%	59%	59%
Blue Bell			
Occupancy %	77%	76%	75%
Sylvan Lake Lodge			
Occupancy %	76%	76%	79%
Legion Lake Lodge			
Occupancy %	66%	69%	75%

21. What are the costs to the concessionaire for water/sewage provided by SDGFP?

The Park does not charge the Concessionaire for water or sewage. SDGFP is responsible for maintenance to all water and sewer facilities up the point of the curb stop cleanout of each structure.

22. Please provide a list of the existing concessionaire's personal property.

Personal Property- The list of items included in the personal property inventory and valuation analysis has been provided in an addendum to the solicitation. This valuation reflects Fair Market Value (FMV) of the personal property inventory as well as Replacement Cost New (RCN).

The sale of this property is not a required transaction between an incoming Concessionaire and an incumbent, and SDGFP does not facilitate any negotiations between parties. The estimated initial personal property investment requirement is based on a 2026 personal property valuation contracted by SDGFP to assist in draft contract underwriting.

23. Are there any exclusions from gross revenue for franchise fee purposes (e.g., taxes, gratuities, pass throughs beyond promo fee, third-party commissions, online booking fees, etc.)?

Section 2 of the Draft Concession Agreement states:

“Gross Receipts” means all revenue received, to be received, or realized by Concessionaire from all sales for cash or credit, of services, accommodations, materials and other merchandise made pursuant to the rights granted under this Agreement, Gross Receipts of SubConcessionaires, commissions earned on leases or agreements with other persons or companies operating in the Resort, and revenue earned from sales through electronic media, mail order or otherwise. Concessionaire shall report all of its revenues to the Department without allowances, exclusions or deductions of any kind. For purposes of franchise fee calculation, gasoline sales will be excluded from Gross Receipts.

24. Is the promo fee collection included in the projected gross revenues of \$23-\$25M?

No. The promotion fee is a pass-through and is not included in the projected gross revenue range. Page 30 of the Business Opportunity in the Prospectus states:

“These fees are treated as a pass-through, collected by the Concessionaire on behalf of SDGFP, and these fees are remitted to SDGFP on a monthly basis based on all gross revenue. Only revenue derived from State-operated lotteries may be excluded in the calculation of the promotion fee.”

25. Can the State provide monthly revenue data for one to two years to better understand seasonality and demand variability? Please provide this by department if available.

Historical detail for periods prior to the new contract projections is proprietary to the incumbent. The level of detail requested cannot be furnished.

26. Can departmental EBITDA or cost breakdowns from the incumbent be shared (even if only at a summary level)?

Historical detail for periods prior to the new contract projections is proprietary to the incumbent. The level of detail requested cannot be furnished.

27. Can funds from the component renewal and personal property reserves be carried over year to year? Are there restrictions on timing of use?

Reserve funds may carry over from year to year. Section 14 of the draft concession agreement provides detail. Specifically to your question, it states:

Treatment of reserve funds at end of term. The parties agree to make every effort to exhaust all funds in the Component Renewal Reserve by the end of the Agreement term. If there is a surplus at the end of the term, any remaining Component Renewal Reserve funds shall be transferred to the Department for the purpose of ongoing maintenance of Government Facilities associated with this Agreement. If there is a deficit at the end of the Agreement term, Concessionaire shall be compensated by the Department in the amount of the deficit.

28. What are the maximum seating capacities of each restaurant and event venue?

Dimensions of each event venue are included on page 15 of the Business Opportunity in the Prospectus. Specific capacity limits will be dependent on seating configuration.

Restaurant capacities based on Dept of Health Licenses are as follows:

State Game Lodge - 200

Legion Lake Lodge - 76

Sylvan Lake Lodge - 150

Blue Bell Lodge - 64

29. What is the approximate square footage of each retail location?

Bison Center- Approx 1,000 square feet

Coolidge Store- Approx 8,000 square feet

Legion Lake- Approx. 7,500 square feet

Sylvan Lake- Approx. 6,500 square feet

Game Lodge Retail Area- 900 square feet within the lobby area

Note: Sylvan Lake and Legion Lake Retail are contained within dual-purpose buildings that include food and beverage as well as equipment rental. Not all the square footage noted above is solely dedicated to retail.

30. Please provide historical electricity and propane costs.

Detailed historical information such as utility costs specific to the incumbent's operation is proprietary to the incumbent. The level of detail requested is considered proprietary to the incumbent. The Park does not charge the Concessionaire for water or sewage. SDGFP is responsible for maintenance for all water and sewer facilities up the point of the curb stop cleanout of each structure.

Electricity is furnished by local providers Black Hills Cooperative (Bison Center) and Black Hills Energy (all locations except Bison Center). Offerors may contact providers directly for utility rates. Propane is furnished by a third-party vendor of the Concessionaire's choosing and negotiated without SDGFP involvement.

31. How many temporary staff/headcounts are brought in during the Buffalo Roundup and Arts Festival?

This is a significant element of Proposal Package question 2A. Specifics as to how the incumbent has staffed the operation historically are proprietary to the incumbent.

32. Reference: Business Opportunity – Retail & Food & Beverage Services, p. 14–16

For Legion Lake and Sylvan retail stores, is counter service within the store classified as Food & Beverage revenue or Retail revenue?

The incumbent reports retail and food and beverage revenue separately at the Legion Lake and Sylvan Lake. The POS system tracks type of revenue based on items sold.

33. Reference: Business Opportunity – Utilities & Communications Overview, pp. 17–19

When were the existing wireless and telephone systems last refreshed, and what is their remaining useful life?

The communications companies own the utility infrastructure to the demarcation point at each facility. Refreshing the system would require participation by the communications companies. SDGFP owns the infrastructure inside each facility. The system is in working order. Note that Legion and Blue Bell have no centralized communications system.

What is the current internet circuit type, bandwidth, and provider at each of the four lodges, the Bison Center, Coolidge General Store, and Creekside Lodge?

State Game Lodge

Phone: 2012

Wireless: 2020

Internet Circuit Type: Fiber

Provider: Mt Rushmore Telephone

Bandwidth: 500/500

Coolidge Store:

Phone: Extension of State Game Lodge system

Wireless: N/A

Legion Lake Lodge:

Phone: 2016

Wireless:

Internet Circuit type: Fiber

Provider: Mt Rushmore Telephone

Bandwidth: 250/250

Blue Bell:

Phone: 2012

Wireless: 2018

Internet Circuit type: Fiber

Provider: Mt Rushmore Telephone

Bandwidth: 250/250

Sylvan Lake Lodge:

Phone: 2010

Wireless: 2024

Internet Circuit type: Satellite
Provider Phone: Century Link
Internet Provider: Starlink/ViaSat
Bandwidth: 100-350 mbps download 10-50 mbps upload

Bison Center:
Phone: 2023
Wireless: N/A
Internet Circuit type: Fiber
Provider: Mt. Rushmore Telephone
Bandwidth: 25/3

34. Reference: Business Opportunity – Investment Analysis & Employee Housing, p. 19; p. 28–29

In the event that the full 3.4% personal property reserve is not needed in a given year, what is the expected treatment of any remaining funds?

Funds may carry over to the following year, but the entire 3.4 percent must be expended over the term of the contract per Section 15 of the Draft Concession Agreement.

On-site housing available to the concessionaire is noted to accommodate 297 employees. Does the current concessionaire exceed this capacity and, if yes, where are the additional employees housed?

Section 2. t. ix. of the Draft Concession Agreement states that campsites may be available to the Concessionaire for employee housing. This is at the discretion of the Superintendent. The current Concessionaire does not have additional employee housing for the Custer State Park Resort outside the park.

How much does the current concessionaire charge employees for housing?

This level of detail is considered proprietary to the incumbent and cannot be shared. However, Section 2. t. of the Draft Concession Agreement addresses Employee Housing and includes the following language:

The dorm facilities identified in Exhibit A of this Agreement are available for providing seasonal employee or volunteer housing. The Concessionaire may charge reasonable rates for seasonal employee housing. These rates should be set based on Concessionaire's actual cost and must be approved annually by the Superintendent. Rates must be submitted for approval by March 15 each year.

35. Reference: Business Opportunity – Anticipated SDGFP-Funded Projects / Blue Bell Store, p. 24

The project title references “gas tanks/pumps,” but the description does not. Will gas tanks and pumps be replaced by SDGFP?

Pumps are considered personal property and would be the responsibility of the Concessionaire. See answers to questions #14 and #15 as well.

Will SDGFP consider installing, or allowing the concessionaire to install, EV charging stations at service stations or elsewhere in the Park?

SDGFP is not considering installation. However, SDGFP would consider allowing the Concessionaire to install provided that: All above ground facilities are considered personal property and removable at the end of contract term; the concessionaire would be responsible for necessary for underground utility installations with no Possessory Interest awarded; the concessionaire would be responsible for all maintenance; and locations would be subject to approval by the Superintendent.

36. Reference: Business Opportunity – Historical Operating Data & Projections, p. 27

Can you please provide historical available room nights and projections for 2027, for each lodge?

Available rooms to be used for occupancy projections are included in the excel workbook required as part of Selection Factor 4. See screenshot below:

Can you please provide historical and projected occupied, available rooms, and ADRs by month?

Historical detail for periods prior to the new contract projections is proprietary to the incumbent. However, projections are based on historical trends. Please see answers to questions #19 and #20 for historical annual occupancy by location.

Please provide historical and projected gasoline sales at Coolidge and Blue Bell.

Historical gasoline sales were reported in the retail department as noted on page 24 of the Prospectus. Similarly, they are projected in the retail department. Gasoline sales have not been significant to overall retail revenue. Coolidge annual gasoline sales have been in the \$29,000 to \$33,000 range, and Blue Bell annual gasoline sales have been in the \$49,000 to \$63,000 range over the past 3 years.

In the F&B estimates for Blue Bell Lodge, is Chuck Wagon revenue included in annual covers and average check, or in banquet revenue?

Chuck Wagon revenue is not included in covers and average check. The separate banquets revenue line item under Blue Bell on page 27 of the Prospectus is reflective of the Chuck Wagon revenue projection.

Food and Beverage- Blue Bell Lodge	2027	2032
Annual Covers	36,075 – 37,925	37,050 – 38,950
Average Check	\$25.00- \$26.00	\$28.00 - \$29.00
Banquet Revenue	\$892,000 - \$986,000	\$1,087,000 - \$1,201,000

37. Reference: Business Opportunity – Investment Analysis, Personal Property & Possessory Interest, pp. 28–29

For equipment installed by the current Concessionaire, what assets transfer as Possessory Interest at contract end, and how are those systems valued for settlement?

Three separate issues brought up in the question to clarify:

1. Exhibit A-2 of the Draft Concession Agreement lists Possessory Interest Assets (which are buildings not equipment). The Possessory Interest value is definitively \$1.3 million.
2. Equipment installed by the Concessionaire as a fixture within the assigned facilities is owned by SDGFP. SDGFP does not assign Possessory Interest to fixture replacement.
3. Personal property is owned by the Concessionaire. The sale of this property is not a required transaction between an incoming Concessionaire and an incumbent, and

SDGFP does not facilitate any negotiations between parties. The estimated initial personal property investment requirement is based on a 2026 personal property valuation contracted by SDGFP to assist in draft contract underwriting.

38. Reference: Business Opportunity – Initial Investment, p. 29

How many jeeps does the current concessioner own and operate to support tours? Can you please provide the number of tours/passengers completed annually? Are the jeeps included in the \$8.1M personal property initial investment?

Yes, the jeeps are included in the estimated personal property investment. The full list of the current Concessionaire's personal property is provided in this addendum document. Tour schedules and participation vary by season and are influenced by factors (such as weather) outside the control of the Concessionaire.

39. Reference: Business Opportunity – Franchise Fees / Promotion Fees, p. 30

What is the current franchise fee being paid by the existing concessionaire?

The construct and economics of the existing contract are different from the draft concession agreement. Therefore, comparisons would not be meaningful. We expect all potential Offerors to do their own due diligence to ensure acceptable returns on invested capital relative to the minimum franchise fee commitment to SDGFP.

Does SDGFP use the promotion fee exclusively for park marketing and promotion of park events?

The Promotion fee covers a wide array of marketing and promotions, but all efforts are directly related to Custer State Park. Other in-Park informative materials such as the Visitor Center film and interpretive display upgrades are eligible as well.

40. Reference: Business Opportunity – Market & Operations Overview, p. 31–33

How much revenue is currently generated from group and event business?

See page 27 of the business opportunity which provides projected estimates of revenue. Banquet (event) revenue is separated out from other food and beverage revenue estimates.

How much revenue is generated through Tour & Travel and FIT segments?

This level of detail is considered proprietary to the incumbent and cannot be shared.

Will social media accounts, website domains, reservation phone numbers, and customer databases transfer to a new concessionaire, or must these be negotiated?

The website domain, the 1 800 reservation phone line, and phone numbers at each facility within the Park are owned by SDGFP and transfer with the draft concession agreement.

There is no obligation for the incumbent to transfer customer database information. Such transfer would be a negotiation between the incumbent and an incoming Concessionaire.

Are reservations currently handled through a centralized call center? What are the hours, location, and monthly call volume?

This level of detail is considered proprietary to the incumbent and will not be shared. However, the contract does not specifically address minimum hours for operation of a call center. Offerors may make projections based on how they plan to operate if awarded the contract.

What reservation/property management system is currently in use?

A Concessionaire may use any PMS they wish, with as long as they comply with reporting requirements of the Draft Concession Agreement.

Is lodging pricing dynamic or static? Is a revenue management system utilized?

See Section 4 of the Draft Concession Agreement. SDGFP does not mandate specific rate administration guidelines or approval. Pricing and dynamic price management should be the responsibility of the Concessionaire based on best industry practices.

Is inventory sold through OTAs such as Expedia or Booking.com? What percentage of bookings are direct vs. OTA?

This level of detail is considered proprietary to the incumbent and cannot be shared.

What percentage of guests are returning guests?

This level of detail is considered proprietary to the incumbent and cannot be shared.

What is the average booking window and repeat stay cadence?

This level of detail is considered proprietary to the incumbent and cannot be shared.

What is the quality and recency of existing photo and video asset libraries?

The recently completed Condition Assessment included high quality images of resort facilities which can be shared upon contract award.

41. Reference: Business Opportunity – Telecommunications pp. 31–33

Are there existing carrier-operated cell towers or DAS / small-cell installations inside Park boundaries?

Yes, AT&T and Verizon currently have presence inside the Park

42. Reference: Proposal Package – Expense Assumptions (Utilities), p. 28

Propane is not explicitly addressed in the utilities assumptions. Is the concessionaire responsible for contracting separately for propane?

Yes

43. Reference: Proposal Package – Visitor Experience / Special Events, p. 41–42

Is there designated space for temporary structures and utilities for the Buffalo Roundup? Are advance permits required?

No advance permits are required. There is electrical power at corral itself and Bison Center. SDGFP does not track Concessionaire electricity usage at this event, nor does it bill the Concessionaire for electricity from these locations at the event. Additional power requirements must be determined by Concessionaire and proposed solution must have approval of the Superintendent.

Is Buffalo Roundup revenue projected within outlet revenue or banquet revenue assumptions?

The Buffalo Roundup revenue is comingled within the food and beverage department's historical revenues.

Specific to the Buffalo Roundup, what event equipment (tables, tents, chairs, stanchions, etc.) is available on-site as concessioner personal property or SDGFP assets vs. what is rented from 3rd parties? Can you provide a detailed list of these assets.

A detailed list of current Concessionaire's personal property is included in this addendum. The Concessionaire does not have access to any SDGFP personal property for use specific to the Concession contract. That is, there is no government-assigned personal property. Proposal package question 2A asks how Offerors will plan for this event. As such, Offerors should do their own due diligence regarding what equipment might need to be rented. To better understand the event, SDGFP suggests a search on YouTube which has several videos taken during the event.

Is the approximately 25,000-attendee event referenced in the Proposal Package supported by the existing POS system, or does it require a separate event-scale solution?

Proposal package question 2A asks how Offerors will plan for this event. As such, SDGFP is interested in how Offerors propose to operate during this event. It is up to Bidders to determine what is required.

For the 25,000-attendee event over three days, what temporary or permanent network capacity exists today?

Proposal package question 2A asks how Offerors will plan for this event. As such, SDGFP is interested in how Offerors propose to operate during this event. It is up to Bidders to determine what is required.

44. Reference: Proposal Package – Selection Factor 2.C, p. 43

What is the page limit for Selection Factor 2.C: Diversification of Lodging, Dining, and Retail Across Park Locations?

Three (3) pages

45. Reference: Proposal Package – Selection Factor 3.B, p. 45–46

What is the page limit for Selection Factor 3.B: Staff Training and Recruitment?

Three (3) pages

46. Reference: Concession Agreement – Definitions / Telephone & Wireless Internet Systems, pp. 11, 59

The Draft Contract defines “Park telephone and wireless internet systems” as equipment installed by the Park. What specifically is Park-owned today versus installed or owned by the current Concessionaire?

The communications company is responsible for utility infrastructure to the demarcation point at each facility. Refreshing the system would require the company’s interest and participation. SDGFP owns the communications infrastructure inside each facility. The system is in working order. Note that Legion and Blue Bell have no centralized communications system.

47. Reference: Concession Agreement – Utilities, p. 11; p. 44–47

Are water and sewer provided by the Department at no cost to the concessionaire? If not, what are the current costs?

See Answer to Question #30

Are there any protections to the concessionaire from utility rate increases over the term of the contract?

See Answer to Question #30

Please provide historical usage and costs for electricity, propane, garbage, water, and sewer for each year of the prior concession contract.

See Answer to Question #30

48. Reference: Concession Agreement – Utilities & Environmental Provisions, p. 44–47

Would the Department consider allowing the concessionaire to install solar panel arrays on or near concession facilities?

We are not considering this currently, as many are historic structures. We want to keep historical and natural aesthetics clean.

Can the Department provide a list of all septic systems managed by the concessionaire, along with copies of applicable permits?

All septic systems are managed by the State. Applicable permits will be issued upon award.

May the concessionaire contract with a third party for recycling services?

Yes

Are there restrictions on recycling receptacle placement indoors or outdoors?

Section 3 of the Draft Concession Agreement states “Concessionaire shall provide outdoor receptacles in high traffic areas. All receptacles are to be provided by the Concessionaire and shall be kept clean, well maintained, serviceable and contained where necessary.”

Would the Superintendent allow open-air or in-vessel composting within the concession land assignment or elsewhere in the Park?

The Superintendent would consider this on a case-by-case basis

49. Reference: Concession Agreement – Fuel Sales / Draft Contract Section XXV, p. 59; p. 68–69

Please clarify the requirement to “directly supervise the fueling of vehicles by the public.” Does an attendant need to be physically present for all fueling?

This is meant to establish that there is an attendant on-site when gas sales are offered. (i.e. when the store is open and staffed), which essentially precludes 24/7 credit card gas sales. If, in the future, a Concessionaire has approval to replace the pumps with modern pumps with card reader systems, the Exhibit to the concession agreement could be changed.

Please provide a copy of the current Spill Prevention Countermeasures and Control (SPCC) Plan for service stations or confirm it will be provided upon award.

All SPCC material will be provided upon award

Can the Department provide an inventory of all fuel tanks within the concession land assignment?

See answer to Question #14

When was the most recent environmental study conducted on underground fuel tanks and were any leaks found?

Tanks were inspected within the last 2 years, and no leaks were found.

If underground fuel tank leaks are found, will SDGFP be responsible for all remediation?

Yes, SDGFP is responsible for remediation in the event of a leak in the underground tanks.

What fuel-dispenser telemetry, tank-monitoring, and environmental compliance systems are in use today, and who bears responsibility for remediation if future leaks are discovered?

SDGFP is responsible for all remediation. Both tanks use a vapor monitoring leak detection system that works with a filament line that deteriorates when in contact with fuel vapors in the ground. These tanks are inspected every 2 years but are only required to be inspected every 3.

50. Reference: Concession Agreement – Centralized Reservation System / Transition, pp. 100–103

The Draft Contract requires disconnecting from the prior Concessionaire’s “centralized reservation system” at termination. What data (historical bookings, guest profiles, loyalty records) transfers to the incoming Concessionaire, and in what format?

The signed Settlement Agreement between the incumbent and SDGFP does not require the incumbent to provide such information. However, a successor could engage in negotiations with the incumbent to secure such information. Refer to the Settlement Agreement included in the Prospectus for further details.

Location / Category	Replacement Cost New (Rounded) February 1, 2027	Fair Market Value (Rounded) February 1, 2027
