#### DRAFT ADMINISTRATIVE RULE CHANGES

Modify ARSD

41:06:29:03. Number and type of licenses available. ~~Two "any mountain goat" licenses may be issued in Unit BMG-BG1.~~ The mountain goat season is closed, and no licenses may be issued in BMG-BG1.

#### RESIDENT/NONRESIDENT CRITERIA

1. The Issue – Not applicable
2. Historical Considerations – Not applicable
3. Biological Considerations – Not applicable
4. Social Considerations – Not applicable
5. Financial considerations – Not applicable

#### RECRUITMENT, RETENTION, REACTIVATION (R3) CRITERIA

1. Does the regulation or fee inhibit a user's ability to participate? Yes, this approach will reduce the number of mountain goat licenses from 2 to 0.
2. Does the regulation increase the opportunity for new and existing users? No. The closed season reduces hunting opportunity but may increase viewing opportunity and allows the population to potentially increase.
3. How does the regulation impact the next generation of hunters, anglers, trappers, and outdoor recreationists? This change would likely not have an impact on the next generation of hunters.
4. Does the regulation enhance the quality of life for current and future generations by getting families outdoors? This change would likely not impact the quality of life for current

generations but could impact future generations by conservatively managing the mountain goat population in South Dakota.

**FISCAL IMPACT**

This will reduce the number of mountain goat licenses from 2 to 0 and reduce the number of preference points purchased (in 2022, 4,359 mountain goat applications were received).
