The Department was approached by the Oglala Sioux Parks and Recreation Authority (OSPRA) requesting an adjustment to boundary of Unit BH3. The request was based on the fact that OSPRA manages a bighorn sheep population that typically occupies the south unit of Badlands National Park in Oglala Lakota County. This respective bighorn sheep population typically resides on tribal property, but at times can make forays onto other property including private, Forest Service National Grasslands and State lands. Individuals from this population also make forays into Pennington County where Unit BH3 is currently open. As a result, there is opportunity for a state-licensed hunter to harvest a bighorn sheep from the herd that OSPRA is managing. The Department agrees to accommodate this request and is recommending that the GFP Commission adjust the unit boundary for Unit BH3 to exclude a portion of lower Pennington County from the current unit boundary to reduce the chance for a state-licensed hunter to harvest a bighorn sheep from this population managed by OSPRA.
