Scope of this Addendum:

The following becomes a part of the original plans and specifications, taking precedence over the items that may conflict. The bidder shall note receipt and make acknowledgment of the addendum on his bid form, incorporating its provisions in his bid.

Item No. 1: Reference Pages 2-3 of the Plan Sheets, Plan Notes. These General Guidelines become part of the Plan Notes:

1. If previously undiscovered cultural resources are exposed during any activities, work within the area shall cease. The site will be secured and protected. Project work at the site will not resume until all activities needed to comply with the **Protection of Historic Properties (36 CFR Part 800.13)** have been completed. Reclamation will consult with the appropriate Historic Preservation Officer (HPO) and the Advisory Council on Historic Preservation on its determination as to whether the discovery qualifies as a historic property. Project work can continue under the advisement of the Project Archaeologist meeting the **Secretary of the Interior's Professional Qualification Standards (48 FR 22716, Sept. 1983)**.
2. In the event of an inadvertent discovery of human remains or funerary objects, all work at the find spot and in the immediate vicinity shall cease. The site will be secured and protected until Reclamation officials and the HPO have been notified and arrive on site.

Protection of the discovery site may include flagging the discovery location with a buffer zone around it, tarping the find spot, and having an individual stay at the location to prevent further disturbance. Contact information for the individual who discovered the site must be provided to Reclamation and the HPO. No digging, collecting, or moving human remains or other items will occur after the initial discovery. Reclamation and the HPO would be responsible for determining the appropriate course of action under the **Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et. seq. [Nov. 16, 1990])**.

3. Under the **Archaeological Resources Protection Act (16 U.S.C. 470aa-470mm; Public Law 96-95 (1979))**, historic properties, which may include rock art sites, historic buildings or structures, or historic or prehistoric artifacts, are protected. Unauthorized collection or digging, vandalism, or other methods of destruction to historic properties are not permitted. Therefore, Reclamation and the HPO would need to be notified if you discover evidence these types of activities
4. Under the **National Register Bulletin 38**, Guidelines for Evaluating and Documenting Traditional Cultural Properties (TCP), a TCP is an historic property that derives its significance from the role it plays in a community's historically rooted beliefs, customs, and practices. If a potential TCP is discovered during the course of implementing the project, all work in its vicinity must halt. Reclamation and the HPO would need to be notified and would be responsible for determining the appropriate course of action.
