PREFACE

Big game harvest estimates reported herein for the 2022 big game seasons were developed as described in Wildlife Survey Manual, 2009-2015, South Dakota Department of Game, Fish and Parks. Species-specific methodologies are reported there.

Wildlife Division Administrative Section personnel (all seasons except Bighorn sheep and Mountain goat – Corey Huxoll; Bighorn sheep and Mountain goat – Chad Lehman) were responsible for development of these harvest estimates, as part of Federal Aid for Wildlife Restoration as Project W-95-R. Harvest survey responses were taken directly over the Internet using Survey123®.

This report funded in part by Federal Aid Project W-95-R

South Dakota Combined Deer Harvest 1975-2022

South Dakota Combined Deer Licensing 1975-2022

ARCHERY DEER

There were 35,220 archery deer licenses issued in 2022 (29,757 resident, 5,463 nonresident). All were single any-deer tags for the Statewide, East River, or West River units, or single antlerless whitetail tags for the LM1 (Limited Statewide) unit.

All license holders that provided a valid email address were surveyed using Survey123 software, and 12,077 responded for a 47% return rate.

The 2022 Archery Deer season ran from September 1, 2022, through January 1, 2023. Respondents reported hunting an average of 12.19 days, which projects to a total of 320,908 recreation days for the season.

The projected harvest for the archery season was 9,023 deer (5,279 whitetail bucks, 2,472 whitetail does, 1,095 mule deer bucks, and 178 mule deer does). The hunter success rate for the season was 31%. The five deer management units with the highest reported harvest by residents were the Black Hills, Brown, Lincoln, Minnehaha, and Brookings, and by nonresidents were the Black Hills, West Harding, Brown, Gregory, and Butte.

Satisfaction was also measured (1=very dissatisfied to 7=very satisfied) and the average response for the season was 4.85 for residents and 5.32 for nonresidents.
