REGULATIONS FOR DISPOSAL OF DEER CARCASSES:

Chronic wasting disease (CWD) has been detected in 20 counties including hunting units associated with the Black Hills, West River, East River, and Refuge deer hunting seasons. To help reduce the spread of CWD, carcass disposal regulations are in effect for all deer hunting seasons and units. **Before applying for licenses, applicants are encouraged to view and understand the CWD regulations.** See the CWD section of this application and visit gfp.sd.gov/cwd-regulations for more information.

DEER APPLICATION: All deer seasons available to the public are included in this application (with exception of Landowner Own Land deer licenses Special Buck, Mentored Deer, and Nonresident Archery Deer which are in separate applications. The Special Buck first draw took place in April and Nonresident Archery Deer (Public and Private Land) took place in May.

LANDOWNER PERMISSION REQUIRED: Permission is required to hunt private land in South Dakota. Every year Game, Fish and Parks receives complaints from hunters who drew a license and couldn't obtain permission to hunt private land once the season opened. Do not apply just because licenses are available. Have permission to hunt before you apply. If you don't have permission before you apply, you may not be able to obtain permission during the season.

APPLY ONLINE: gfp.sd.gov

Visit gfp.sd.gov, click "Licenses," and then "Purchase License." From there, the system walks you through step by step. If you do not already have an account, you will be required to create one. You will begin by selecting a season to apply for and your first-choice hunting unit. Please note that you are required to provide a credit or debit card number to finish the transaction. Upon completion and submission of your application, you are then placed directly into the drawing for the unit you selected. Preference points are automatically included if you had any from previous years.

DRAWING STATISTICS AVAILABLE:

Applicants may access last year's drawing results online gfp.sd.gov. Past drawing information will be available from 2022 seasons, and the 2023 information will be available once the drawing is complete.

APPLICATION REQUIREMENTS

Residency

To apply for a resident license, a person must:

- Have a domicile within South Dakota for at least 90 consecutive days immediately preceding the date of application for, purchasing, or attempting to purchase any hunting, fishing, or trapping license/permit. (A domicile is a person's established, fixed, and permanent home to which the person, whenever absent, has the present intention of returning), and
- Make no claim of residency in any other state or foreign country for any purpose, and
- Claim no resident hunting, fishing, or trapping privileges in any other state or foreign country, and
- Prior to any application for any license, transfer to SD the person's driver's license and motor vehicle registrations.

EXCEPTION: The following persons are eligible for resident licenses:

- Any person who previously had a domicile in SD who is absent due to business of the United States or SD, or is serving in the armed forces of the US, or the spouse of an active-duty military person;
- Any person who previously had a domicile in SD who is absent due to regular attendance at a post-high school institution as a fulltime student or in a medical or dental residency program;
- Any person in the active military of the US or that person's spouse who is continuously stationed in SD;
- Any person who is a patient in any war veterans' hospital within SD;
- Any person who is an employee of the veterans' administration or any veterans' hospital in SD;
- Any person residing on restricted military reservations in SD;
- Any person attending regularly a post-high school institution in SD as a full-time student for 30 days or more immediately preceding the application;
- Any foreign exchange student over 16 years of age attending a public or private high school who has resided in the state for 30 days or more preceding the application;
- Any foreign exchange student who is between the ages of 12 and 16 who has completed the GFP course of instruction in the safe handling of firearms and has been issued a certificate of competency upon completion of instruction and who has resided in SD for 30 days or more preceding application for a license;
- Any person who is a minor dependent of a resident of SD

Termination of Residency

A person (other than a person who fits into one of the previous EXCEPTIONS) is deemed to have terminated their South Dakota resident hunting, fishing, and trapping status if the person does any of the following:

- Applies for, purchases, or accepts a resident hunting, fishing, or trapping license issued by another state or foreign country;
- Registers to vote in another state or foreign country;
- Accepts a driver's license issued by another state or foreign country; or
- Moves to any other state or foreign country and makes it the person's domicile or makes any claim of residency for any purpose in the other state or foreign country.

However, a person who has lawfully acquired a resident hunting, fishing, or trapping license and who leaves the state after acquiring the license to take up residency elsewhere may continue to exercise all the privileges granted by the license until the license expires if the person's respective privileges are not revoked or suspended.

Social Security Number

The last four digits of your Social Security Number are required. The Social Security Number information is required from all U.S. residents before this application will be processed [SDCL 25-7A-56.2]. This information will be kept confidential. The information is required to be in compliance with state law on collection of delinquent child support payments.

South Dakota law prohibits the issuance or renewal of any hunting or fishing license if an individual owes \$1,000 or more in past-due child support unless the individual enters into a repayment agreement with the Dept. of Social Services for payment of the delinquent child support [SDCL 25-7A-56; 25-7A-1(28)]. There is a requirement to enter into a repayment agreement with the Dept. of Social Services even if the individual is presently making child support payments, or if child support is being withheld from wages or income. To enter into the required repayment agreement, individuals must contact the Dept. of Social Services - Office of Child Support Enforcement, 700 Governor's Drive - Kneip Building, Pierre SD 57501, or call 605.773.6456.

Submitting Applications

Applications must be submitted online. If you do not have internet access, you can apply by calling 605.223.7660 or visiting any GFP Wildlife Division Office.

Successful Applicants

Successful applicants for limited licenses are selected at random by computer lottery. Online applicants' credit/debit cards will be charged at the time of the drawing.

Unsuccessful Applicants

Unsuccessful applicants who applied using a credit/debit card will be charged only if they chose to purchase a preference point.

Preference Points

Seasons with a limited number of licenses have a preference point system for applicants who are unsuccessful on their first choice in the first drawing (\$5 for residents and \$10 for nonresidents). One preference point may be purchased each year the applicant is unsuccessful. Purchased preference points are automatically credited to an applicant for the following year. Preference points cannot be transferred to another person. Preference point use is mandatory for first choice in the first draw. Applicants can choose to use their preference points for second choices in the first three draws. If a person chooses to use their preference points, and they are successful in drawing that license, they will lose all accumulated preference points for that season. If a person chooses not to use their preference points and are successful in drawing a license, they will not lose their preference points for that season. If you have any questions about your preference points, please contact the GFP Licensing Office at 605.223.7660.

Preference points for the combined deer drawings are free to youth age 15 or younger during the calendar year when the preference point is acquired. Applicants for a combined deer drawing that is or was age 15 or younger in the calendar year of the drawing (and has not previously been successful in a first-choice drawing) will receive a bonus preference point for the season applied for prior to the respective drawing taking place.

Resident Landowner Preference

(Applies only to West River, East River and Black Hills deer seasons)

- One-half of the resident licenses for the seasons listed above are set aside for the first choice in the first drawing for residents who qualify for landowner preference.
- To be eligible for landowner preference, a landowner or tenant must operate at least 160 acres of private land within the unit applied for as first choice.
- "Operate" means: to lease or hold fee title to farm or ranch real property and be directly involved in the management decisions made for agricultural purposes on the farm or ranch.
- "Agricultural purposes" includes the producing, raising, growing, or harvesting of food or fiber upon agricultural land, including dairy products, livestock, crops, timber, and grasslands.
- Land leased solely for hunting, fishing, or trapping does not qualify for landowner preference.
- A landowner or tenant, but not both, may claim landowner preference for the same qualifying property.

APPLICATION REQUIREMENTS

- Immediate family members are eligible and include the applicant's spouse and the applicant's children residing with the applicant or on land owned or leased by the resident farmer or rancher.
- Employment on a farm or ranch alone does not qualify an individual for landowner preference.
- Shareholders of a corporation, members of a limited liability company holding a membership interest in the company, partners in a partnership, and beneficiaries of a trust entitled to the current income and assets held in trust; all organized and in good standing under the laws of South Dakota are eligible for landowner preference if:
 1. The entity holds title to 160 acres or more of private land located within the hunting unit applied for;
 2. The shareholder, member, partner, or trust beneficiary applying for landowner preference is a resident; and
 3. The shareholder, member, partner, or trust beneficiary has responsibility for making the day-to-day management decisions for agricultural purposes on the farm or ranch.
- Nonresident landowners do not qualify for this preference.

Age Eligibility

- Residents and nonresidents must be 12 years old by Dec. 31, 2023 to hunt.
- Residents under age 16 must successfully complete a HuntSAFE course.
- Nonresidents under age 16 must include the certificate number from their hunter safety card, or a current or previous hunting license issued to them from any state.
- Residents and nonresidents who have not completed the HuntSAFE course at the time of application must leave their HuntSAFE number blank within their profile, but they can still apply. If successful in the draw, their license will be held until the GFP License Office is notified of the HuntSAFE card number once the course has been successfully completed.
- Information on the "Mentored Hunt" program is found in a separate application form.

Fees

Payment for applications submitted must be made with a valid credit/debit card (Visa, MasterCard, American Express, or Discover). Your credit/debit card will not be charged the license fee unless you are successful in the drawing, or unsuccessful and selected to purchase a preference point. Nonpayment in the form of a cancelled credit/debit card will result in your license being withheld and the blocking of any future license purchases until the unpaid fee, along with any penalties, is paid in full.

Group Applications

- Applications with matching first and second choices, submitted in the same group, will be treated as a group application. All applicants will either be successful or unsuccessful in the drawings.
- Applications with preference points should be aware when applying with applicants with fewer preference points, the lowest preference point balance is then represented within the entire group.
- No more than six applications may be submitted in the same group.
- Residents and nonresidents may apply together in the same group. Either all in the group will be drawn together or all will be rejected. This is valid only in seasons and units where both resident and nonresident licenses are available for a specific drawing. It should be noted that in most instances, residents who apply with nonresidents will have a diminished chance of drawing a first-choice license.

Application Rules

- Applicants applying for differently priced licenses as first and second choice will be charged the respective fee, if successful.
- Applicants wishing to receive a preference point for seasons in which they are unsuccessful in their first choice, must select to purchase a preference point during the application process.
- Licenses may not be transferred to another person.

The combined deer drawing allows a resident hunter to apply for two of the six deer seasons (firearm seasons) in the first draw. These seasons include the following: East River/Special Buck, West River/Special Buck, Black Hills, Muzzleloader, Refuge and Custer State Park. Successful Special Buck license holders are limited to one additional application in the first draw of the combined deer draw if that application was not valid for the same season as their Special Buck license.

Nonresident hunters are eligible for eight percent of the license allocation for West River, Black Hills, and Refuge hunting seasons during the first drawing.

Other details include:

- In the second draw, a hunter may not apply for a leftover license if they possess two licenses for any of the East River/Special Buck, West River/Special Buck, Black Hills, Muzzleloader, Refuge and Custer State Park deer hunting units in the first draw. A person with one license for these seasons may submit one application for a season they currently do not possess a license.
- In the third draw, a resident hunter (even if they possess two licenses) may submit one application for each season they do not possess a license.
- In the third and fourth leftover drawings, a nonresident who does not possess a license may submit two applications and a nonresident who possesses one license may submit one application for a season if the nonresident does not possess a license for that season.
- In the fourth draw, resident hunters may submit up to five applications (even if they already possess two licenses). Only those nonresidents without a license may apply for a license remaining in pools originally designated (8%) for nonresidents (West River, Black Hills, and Refuge). Applicants who already have a Special Buck license cannot apply for additional Special Buck licenses (hunters are limited to one Special Buck license, per year). If an applicant possesses a West River Deer license, they may not apply for a West River Special Buck license in the fourth draw. However, a person who already possesses a West River Special Buck license may apply for a West River Deer license in this drawing.
- After the fourth draw, all remaining resident and nonresident licenses are pooled and sold first-come, first-served. There will be no limit on the number of licenses that a person can acquire. However, applicants who already have a Special Buck license cannot apply for another Special Buck license. If an applicant possesses a West River Deer license, they may not apply for a West River Special Buck license.

APPLICATION INFORMATION

A person 18 years of age or older is required to purchase a Habitat Stamp (\$10 for residents and \$25 for nonresidents) when applying for or purchasing any hunting, fishing, or trapping license. A person is not required to purchase more than one Habitat Stamp within a license year.

The license fee (except Apprentice, Youth, or Mentored Deer) includes a \$6 surcharge established by the South Dakota Legislature. Surcharge monies are divided between programs for wildlife damage management and public hunting land access, programs that benefit both landowners and hunters.

TRIBAL LANDS. State licenses are valid on private, deeded lands within the exterior boundaries of an Indian reservation. Persons applying to hunt on Tribal lands should contact the appropriate tribal office concerning tribal lands.

NATIONAL FOREST ROAD TRAVEL. National Forests and Grasslands in South Dakota have Travel Plans in effect. If you are planning a trip for hunting or recreation please contact the local Forest Service office for your hunting unit to find out which roads, trails, and areas are open for highway and off-road motorized travel, and if seasonal restrictions apply. New roads, trails, and areas have been developed and some roads, trails, and areas you may have used in the past may be closed to public use. Recreation fees may apply. Contact US Forest Service for more information.

WEST RIVER DEER (WRD)

Season Dates: November 11-26, 2023. See unit descriptions for exceptions to season dates for Gregory County.

Antlerless only season: Only those tags specifically designated as “antlerless” are valid from December 9-17. **“Any” deer tags do not convert for this antlerless only season.**

License Eligibility: Residents and nonresidents are eligible for all units, except individuals who received a West River Special Buck license (Unit WSD-WR1-01 or WSD-WR1-11); these individuals are not eligible to apply until the fourth drawing for residents and the fifth drawing (leftovers, first-come, first-served) for nonresidents.

Individual License Quota: See Application Rules on page 3 for information.

APPLICATION DEADLINES

CHRONIC WASTING DISEASE

Chronic Wasting Disease (CWD) is a fatal disease of the central nervous system found in both captive and free-ranging deer and elk. The South Dakota Department of Game, Fish and Parks (GFP) has been conducting surveillance for CWD since 1997 to determine disease presence and prevalence across the state. CWD has been confirmed in Bennett, Buffalo, Butte, Corson, Custer, Fall River, Haakon, Harding, Jackson, Lawrence, Lyman, Meade, Mellette, Pennington, Perkins, Stanley, Sully, Tripp, Union, and Ziebach counties in central and western South Dakota.

Carcass transportation and disposal regulations apply for any harvested deer or elk that will be transported from the county of harvest or from another state back into South Dakota and include the following:

- » Hunters are recommended to leave as much of the unusable carcass as possible at the location of the harvest in a discrete location. Make arrangements with landowner on property where permission has been granted.
- » Regulations do not prohibit a hunter from transporting a deer or elk carcass from the harvest location to anywhere in the state.
- » If any portion of the carcass is transported from the county of harvest, regulations require the hunter to dispose of all carcass remains with a waste management provider, if an allowable trash item, or with a permitted landfill.
- » If you are not moving a deer or elk carcass from the county of harvest, the regulations do not apply unless the carcass is delivered

to a game processor or taxidermist. Returning carcass remains to public lands and using road ditches to dispose of carcass remains is illegal. Make sure permission is granted if disposing on private land.

- » Deer or elk carcasses from another state brought back into South Dakota must be disposed of with a waste management provider or landfill that accepts carcass parts.
- » Game processors and taxidermists, regardless of the location of harvest, are required to dispose of all carcass remains with a waste management provider, if an allowable trash item, or with a permitted landfill.

Hunters who would like to get their deer tested for CWD can voluntarily submit a sample for testing. As a voluntary submission, hunters will be responsible for the cost of shipping and any professional sample collection costs unless the hunter delivers a sample to a GFP Office or sample collection area. GFP will pay for the testing cost of the sample at South Dakota State University Animal Disease and Research Diagnostics Lab (SDSU ADRDL).

Results will be sent to both the hunter and GFP. These results will supplement GFP’s surveillance effort across the state. The process for collecting samples from a harvested elk or deer (same process) and how to properly submit to SDSU ADRDL can be found at gfp.sd.gov/cwd-testing.

Municipal Archery Deer Hunts

Several municipalities have worked with GFP to develop urban deer management plans to help alleviate issues like vehicle/deer collisions and property damage. Archery deer hunting within city limits can help address issues caused by urban deer populations and provide additional hunting opportunities. Specifically, the municipal governments of Custer, Rapid City, and Sioux Falls have implemented archery deer hunting as a management tool. In addition to the one “antlerless whitetail deer” archery license, applicants can apply for one “any antlerless deer” archery license for these municipal government archery seasons. Season structure and specific regulations are determined by the appropriate municipality within the requirements and restrictions of the South Dakota archery season. For more information on this opportunity and to apply, please visit gfp.sd.gov/pages/municipal-deer.

RESIDENT ARCHERY DEER (ARD)

CONSIDER A DONATION

SECOND CENTURY HABITAT FUND

The Second Century Habitat Fund is a nonprofit organization that serves as a resource to landowners and conservation organizations to improve habitat through a working lands program that puts more perennial grass on the landscape which will contribute greatly to duck and pheasant nest success and provide other wildlife benefits. The Fund recognizes the importance of conserving the land, enhancing wildlife populations, and getting the next generation involved in outdoor recreation, while increasing support for habitat. To learn more about the Second Century Habitat Fund or to make a donation visit sdhabitatfund.org.

SPORTSMEN AGAINST HUNGER

GFP is cooperating with Sportsmen Against Hunger (SAH) to assist in paying fees for commercial processing of antlerless deer that are donated to the SAH program for needy families. Some things to remember include:

- Processing certificates will be available at participating processors for hunters to use in paying for most or all the processing costs of donated antlerless deer.
- Processing certificates cannot be used for buck deer, antelope, or any other big game but this game can still be donated at hunter processing expense.
- A list of participating processors will be available from the SAH website at feedtheneedsd.com or by calling 800.456.2758.

You can support this program by making financial contributions when you submit your license application.

TURN IN POACHERS - (TIPS)

South Dakota's Turn In Poachers (TIPs) is a private, non-profit organization run by Wildlife Protection Incorporated. The program is funded through donations from the big game license application check-off, private individual/group donations and through court ordered restitution. Rewards are paid in cash once an arrest is made and informants can protect their identity and remain anonymous. Informants are eligible for rewards of up to \$300 for big game cases and up to \$100 for fish and small game cases. Higher rewards may be paid in extreme cases.

Since the Program began, there have been over 13,000 investigations initiated that have resulted over 5,000 arrests. Poachers have paid over \$948,000 in criminal fines and an additional \$900,000 in liquidated civil damages have been assessed to these violators as well. TIPs has paid out more than \$198,000 in cash rewards to individuals that have supplied information that has been critical in achieving these results.
