- Concluding Notes

David Parker

SF Campus Director

“Hey Folks, did you notice that our Webpage got a new look? We hope that this revamp will provide each of you more information about how you can enjoy the Campus and Sertoma Park!”

Winter: Will We Get Snow???

For years, The Campus has been known for offering a variety of outdoor opportunities in the winter: xc skiing, snowshoeing, outdoor survival, and ice fishing. In 2021 we had so little snow, we barely got to utilize our skis or snowshoes! Luckily, each winter brings with it the opportunity for snow and we are hopefully this winter to get lots of snow!

Notes from The Friends of The Outdoor Campus SF

Greetings from the Friends of the Sioux Falls Outdoor Campus Board. The Board has been busy the past months working with staff on the updated expansion plan for the campus. The members have devoted many volunteer hours attending meetings to review architect drawings and suggesting changes to meet the public need. The expansion is long overdue. The campus needs additional classrooms and indoor facility for archery and BB gun shooting. Plus the Campus needs a large room to accommodate large group sessions. Sioux Falls is a growing community and has outgrown the present facility.

Thanks to all of you who attended the 25th Anniversary celebration. It was exciting to see the support for the Campus.

The Friends Board wants to wish all of you a Happy Thanksgiving. Be safe.

See you at the Campus.

Members of the Board are:

Jan Nicolay
Brian Klatt
Tim Kromminga
Amanda Oines
Ryan Brown
Royce Merritt
Cheryl Ulvestad

Jeff Scherschligt
Kathy Anderson
Eric Olson

FRIENDS OF THE

**OUTDOOR
CAMPUS**

— SIOUX FALLS, SOUTH DAKOTA —

SD GFP Region 3 Wildlife Division

Fall hunting seasons in South Dakota are in full swing and hunters are excited to see that crop harvest has progressed especially quickly this year making wildlife more visible and vulnerable to hunters, thereby increasing harvest success. While pheasant numbers seem to be plentiful in some areas, the lack of sufficient grassland habitat in some locations makes for some substantial differences in hunter success depending on location. Bird numbers in Kingsbury and Miner County have been especially noteworthy, however, hunters are reporting pockets of birds in nearly all counties in the Region. Waterfowl hunter success in the northern portion of the Region has been improving as well as new birds migrate into those areas. Dry weather conditions throughout much of this past year have caused many of the wetlands located south of Highway 34 to dry up altogether.

While this situation will take a bite out of this year's duck hunter success, the drying of these wetlands helps to consolidate bottom sediments and increase wetland productivity once the wetlands refill. Hopefully Mother Nature will bring us a good 'ol South Dakota Winter this year and we'll see wetlands and waterfowl return to the southern portion of the Region next spring. Hope you all have a chance to get out and enjoy the brisk fall weather....looks like Old Man Winter might be right around the corner.

Emmett Keyser

Region 3 Wildlife Supervisor

A Look Back at Fall 2022

The Campus kicked off another Hunting 101 season. This comprehensive class is open to students of all ages and backgrounds. The class takes students through the process of purchasing a mentored or apprentice tag, time at the range, time in the field, and processing the harvested deer. Students are also able to keep the meat from the deer. This year we have harvested 32 deer, so far with a plan to harvest another 18 .

Fly Fishing and Fly Tying Classes

Throughout the Fall, The Campus holds a variety of classes including fly fishing. If you are an avid angler, this class is a great way to try out a different type of fishing. Be looking for some winter fly tying classes, which are a great way to pass the winter months!

Pheasant Hunting

With fall, comes hunting. With fall in South Dakota, comes pheasant hunting. We hosted a variety of pheasant hunting classes this fall. Some of them, such as the one in this photo, included a cleaning portion.

Campus Updates

New Staff Member!

Joe Salvati
School Coordinator
GFP & 4H Extension

Hello all,

I am Joe Salvati and I am the new School Coordinator here at the Outdoor Campus. What my position entails will be working with Sioux Falls School District to provide educational programming to teach kids about outdoor skills and conservation. Also, I have the opportunity to work with 4-H and assist them with all of their amazing programming that they put on in Eastern South Dakota. A little bit about me, I grew up in Southwestern Minnesota and went to college at SDSU. I graduated in May with a degree in Natural Resource Law Enforcement. During college I worked for about 3 years as a naturalist intern here at the Outdoor Campus and had the best time so I am very excited that I get to stay and continue to teach people about the things I love.

Campus Updates

Trail Maintenance!

Concrete Paving

One of our goals here at The Campus is to enable folks of all backgrounds to enjoy the outdoors. In an effort to continue this, the Campus is lengthening our sidewalk. The new extension will go from where it ends now (by the playscape) and proceed a little ways passed the boat house.

This expansion will allow easier access for folks to get down to our newer dock. The dock is already paved down from the shelter to the water, this will simply be a connector trail to the Campus. Work started on November 1, and is slated to end on November 15.

Campus Updates

Fire Ecology Update

As many of you may remember SD Game, Fish and Parks in partnership with the City of Sioux Falls Fire Rescue implemented a prescribed burn on May 10th. In conjunction with the Mission of The Campus, we have posted signs that explain about the burn and we also created the following video to help educate on why we use fire for restoration and conservation:

<https://www.youtube.com/watch?v=3ecuiufaFWM&t=14s>

Campus Updates

Native Shore Line Planting

If you are walking around The Campus Pond in Sertoma Park, you may notice the above, our new native shoreline planting. Thanks in part to the folks in fisheries, the Campus now has a shoreline planting show plot. The goal of this area is to offer an example and educate on the benefits of native grasses to the waters of South Dakota. We also made a video to accompany this work:

Campus Updates

25 Year Anniversary Celebration

On August 30, 2022, The Campus held a 25 Year Anniversary Party! This was an opportunity to say thank you to everyone past, present, and future who have and will make it the gem it is. Region 3 Supervisor - Emmett Keyser, SF Parks and Recreation Director - Don Kearney, Friends of the Outdoor Campus Chair - Jan Nicolay, GFP Secretary - Kevin Robling (featured in picture), Governor - Kristi Noem (featured in picture), and Parks and Wildlife Foundation Executive Director - Kristina Coby all spoke at the event.

Governor Noem presented a proclamation naming August 30, 2022 as "Sioux Falls Outdoor Campus Day" (as featured in the above picture).

HIGHLIGHTS

Raptor Rendezvous

On February 3, 2023 at 5pm The Campus will hold our annual Raptor Rendezvous Event! The Minnesota Raptor Center will do two presentations (5-6pm and 7-8pm), space is limited so please register for this event! Between presentations (6-7pm) there will be some fun raptor-themed activities for folks of all ages!

Snow and Go

Given that winters are so variable, we never know when we are going to get enough snow to offer cross-country skiing or snow shoeing.

To help with this, we work to offer our "Snow and Go" Programs. These are pop up classes that are open to the public without registration required. For these classes we will provide the boots, skis and poles! All we ask is that your dress warm!

If you would like to know this winter when we are going to offer a Snow and Go, follow us on Facebook for our most up-to-date programming opportunities: @outdoorcampusSF

Fall 2022 Programming Booklets

Predator Calling and Hunting

Thursday, January 26 from 6:30-8:00 PM

Learn some tips and techniques from GFP Wildlife Damage Specialists on how to hunt coyotes. This program will be held virtually via Zoom.

Check out these Classes!

Wild Game Cooking - Odd Bits and Pieces

February 21 from 6:30-8:00 PM

Liver, heart and tongue are just a few of the odd bits and pieces we will be cooking up to tease your taste buds. In an effort to use as much of a harvested animal as possible, this class will give you an opportunity to explore some tasty recipes with some less commonly used parts.

Our Winter 2022 Program Booklets come out November 9! You can swing by the Campus to pick up a hard copy or you can check them out online:

<https://gfp.sd.gov/east-programs/>

Registration for Winter Programs starts November 16 at 8:00 am.

Campus Volunteers

Outdoor Campus-Sioux Falls volunteers have been busy as usual! They amaze me with their talents, knowledge, and willingness to help. Volunteers donated over 700 hours of their time from August through October. They have been busy assisting with homeschool programs, community classes, and the Hunting 101 program. Staff and participants have noticed volunteers stepping up lately, and we could not be more appreciative! I love seeing volunteers become more confident in their knowledge, teaching, and outdoor skills. I am excited to transition to winter programming and see our volunteers excel in seasonal classes such as ice fishing, cross-country skiing, and snowshoeing.

Again, thank you, volunteers, for your continued dedication to the Outdoor Campus. Our organization would not be the same without you. You all help create meaningful experiences for visitors and participants of the Outdoor Campus and are helping to instill a love for the outdoors in others.
