Prairie Hills Audubon Society

This is a comment on changes to beaver trapping seasons, being proposed to make beaver seasons more consistent. We think you are trying to make all beaver trapping start on November 1st. We think this leaves other season inconsistencies. The East River beaver season is 6 months, the Black Hills Beaver season is 3 months and the West River beaver season is 365 days. River otters are incidentally trapped in beaver traps. 365 days of beaver trapping is given as a reason it would be difficult to re-introduce otters West River. The reason for this longer West River season is alleged to be, that West River ranchers complain more about "conflict" beavers. Why not require them to apply for permit to take a "conflict" beaver, as provided in SDCL 41-8-23, rather than have year long trapping?
Why not make the East-West River seasons match and make both of them 6 months. Why not make trapping on all public lands three months later in the winter, like the Black Hills National Forest. Beavers provide for habitat for many other species and federal and state public lands are often supposed to be managed at least in part for wildlife and water quality/quantity.

Fall Turkey

Comment:

In the many years we have lived in the Black Hills, we have usually seen some turkeys in our area. This year, we have seen NONE. There are NO HENS, NO BABIES, absolutely NOTHING. We are AGAINST ANY FALL TURKEY SEASON. The numbers indicate that there is a less than 35% "success" rate. Why are you allowing a turkey hunting season when there are so few out there anymore? Does the research not tell you this should be put on hold until they increase in numbers?

canceling road side survey for pheasants is wrong step I wont hunt pheasants in SD with it gone

Dear Managers

Hiding your pheasants numbers will discourage new out of state hunters from coming to state. Most people want to know if they are wasting their time in going to an area that has no Pheasants. I was talking to person who only has limted amount of vacation time for hunting and said he isnt blindly going to south dakota picking a spot to hunt and waste his time.

I am a conservationist who believes how do you fix a problem . know the facts and change your habitat problem.

Not Bury your heads in the sand.

Are you going to get rid of the water fowl numbers next. I wont hunt that season if you do that also.

Your money will dry up no out of state hunters

Arnold Veen

Comment:

Hello, Just want to air out a problem with your West river archery deer CF196 access permitting system.

The issue is as follows: I hunt the Slim Butt area of the Custer National Forest in which I need a CF196 access permit.

It requires that I buy a West River Archery Deer license before applying which I did.

I then applied for the CF196 access permit and now I received a unsuccessful draw result on my application for CF196.

I now have a West River Archery tag that I can not use for my hunting area of the Slim Butts. Money spent!!

This is backwards It should allow hunters to apply for the Access Unit CF196 before buying a tag to keep from spending the money on the Achery Tags that will not allow you to hunt your chosen area in this case Custer National Forest Land (35L).

I assume there is no refunds at this point?

It probably not your problem but I will send this to your dept as well as the GFP commission also.

Thanks for listening.

Comment:

Dear SDGFP,

I think that the Hunt for Habitat raffle is a great idea and opportunity. As a resident of SD, I am hoping to someday have the opportunity to hunt elk in my home state. I have several years of preference points, now which I pay for.

I have a father who passed away last year who had one opportunity in his lifetime to hunt elk in South Dakota, his life-long state of residence. And unfortunately, he drew during the Atlas blizzard year in the Black Hills which significantly altered his plans and life long dream.

However, he never did get the chance to hunt archery elk as he never drew a tag. Hence, I do have concerns with the opportunity you afford non residents in this raffle. For those of us who have tried many years to draw a tag, and who have observed family members do the same over a lifetime, it is difficult to comprehend the opportunity a non resident has to hunt SD elk for a \$20.00 raffle ticket.

I understand the economics involved; however, I do recommend and suggest you reevaluate. In my opinion, the difference of \$10.00 between a resident and non resident raffle opportunity for a cherished South Dakota elk tag is offensive.

Thank you

It was brought to my attention that native americans should have free access to the river. I was talking to a tribal member and they have valid opinions and feelings. As you know most of the native population dont have a lot of financial resources, so to be able to help them in this way would be good for everyone. It will help build a bridge between cultural difference and build new connections with each other. With everything that is happening today with BLM movement, you would be able to support the movement. Which will also help you bring new visitors to this beautiful area which in turn gives you more business and revenue. I admit I dont know a lot about business but I know if more people visit the more money you yet. This is a win-win situation. Thank you for your time and hope to hear from you soon.

River Otter Season

John Hopple

Black Hawk SD

Position: support

Comment:

Hello Secretary Hepler, Chairman Jensen and Commissioners.
as President of the South Dakota Trappers Association I speak for our members in supporting the river otter season proposed by GFP. In addition I would like to add the following comments.

This was not asked for by us or proposed by us. I have read the public comments and wanted to address some attacks we have taken. This was a proposal by GFP based on science and experts in wildlife biology. There was no emotion, just facts and figures. GFP has the right to decide seasons and harvest for ALL creatures that fall under its purview. As such this is much the same as setting the west river deer season or antelope season dates and number of tags. Research, facts and figures are used to come to those decisions. It is not made by the hunters but by the experts at GFP who are funded by sportsman's tax dollars. We trust these folks to provide this information on all other species why the backlash for this one animal? Just as some seasons/harvest limits for certain species are changed every year so may the river otter be in future seasons. It is the right of GFP to manage the wildlife and should be so unabated. So in conclusion, Yes the SDTA strongly supports the GFP's decision to establish an otter season based on the information presented by its experts who do these studies and analyzing of facts/figures emotion free every day.

Thank You

John Hopple

There are so few otters in the Black Hills that there they should be protected for the future. There should be no trapping season on these wonderful little creatures. Please let them live so that they may increase in numbers so we do not lose this endangered species.

Brian Gundvaldson

Egan SD

Position: support

Comment:

I am in full support of season. I believe we have the otters and would be nice if trappers could keep the incidentals that are already being caught, and use the resource to it's full potential.

Vickie Hauge

Deadwood SD

Position: oppose

Comment:

I am writing to question why there is a trapping season for the River Otter in the West of the Missouri River? We have not seen the otter here since 2018. I do also question The GFP management reasoning when their estimate of possibly 40 Otters in the whole state of South Dakota. 40 is a very small number & when they are trapped out, so you introduce them back so that 10 years later, they get trapped again? Our Otters are being killed accidentally in traps that are set out for other animals all ready. The methods used to count these endangered animals is in my view, leaves much to be desired. Really not knowing if there are even 40 out there, it would be prudent for you to stop this trapping season all together. The trappers in South Dakota are given what ever they want & the non trappers who are amazed by these beautiful creatures in our state, have to live with it. Do you represent all South Dakotans? I think not!
Please reconsider this & show is that we are all being represented by you.

Thank you.

Dear GFP Commission

We are attaching our first letter in opposition to the northern river otter trapping season. Our first letter discusses how the otter delisting was done illegally, due to violation of public notice requirements. You would be tiering a trapping season to an illegal delisting rule and we advise against doing that.

We are also attaching 5 documents to our letter - These attachment's will include

1. Native Sun News Article on River Otters
2. 2006 Public Notice of December's GFP Commission Meeting
3. 2020 Public Notice of May's GFP Commission Meeting
4. List of Statutes for Chapter 1-26
5. List of Statutes for Chapter 34A-8

However your portal only allows one attachment per comment, thus I must use 5 postings to attach 5 attachments.

Prairie Hills Audubon Society

We are submitting our first comment letter on the river otter trapping season. I thought I had sent it already, but I have not yet gotten a receipt for it, thus for safety I send it again.

This is a comment letter discussing how the delisting of the river otter was done illegally, as you did not provide the required 30 days public notice. We think it improper to tier a trapping season to an illegal delisting rule. This letter has 5 attachments. We already sent 4 of them and got receipts for those. We could not successfully send a 5th attachment, so we e-mailed it to Rachel Comes. The attachments are about

1. Native Sun News Article on River Otters
2. 2006 Public Notice of December's GFP Commission Meeting
3. 2020 Public Notice of May's GFP Commission Meeting
4. List of Statutes for Chapter 1-26
5. List of Statutes for Chapter 34A-8

Wendy Luedke

Lead SD

Position: oppose

Comment:

I am against otter delisting & the delisting was not done procedurally (inadequate public notice)

2. I would like otter season to be postponed until we have a higher number of otters in SD & otters are recovered in both east & west river.

3. I would like the trapping area be limited to a smaller area and not apply to west river and not apply along the Missouri River.

4 There should be West River otter reintroduction project(s), especially to La Creek NWR before any West River trapping.

5. Otters are killed accidentally in beaver, raccoon and mink traps. As a result the beaver trapping season in West River should be shortened.. The current West River season - except Black Hills - is 365 days, East River season is 6 months. The Black Hills Season is 3 months. The reason for this longer west river season is alleged that West River ranchers complain more about "conflict" beavers. Why not require them to apply for permit to take a "conflict" beaver, as provided in SDCL 41-8-23, rather than have year long trapping?

6. All beaver traps that are not set during an otter season, should have the trip wire off to the side, rendering them less likely to incidentally take otter.

7. Any otter taken by humans..incidental trapping, vehicle kills, be counted against the next season's "harvest limit".

8. The 2020 SD Otter Management Plan...has inadequate information in it.

9. The wildlife watchers, photographers & hikers make up a much larger sector of the population and their wildlife enjoyment should be considered and given respect by SD GFP. And enough otters should be kept to expand to West River . Please recognize that viewing otters provides the benefits to quality of life for residents and reasons to visit for tourists.

10. I would like an actual otter monitoring plan in place before beginning otter trapping, this has not been done yet.

11. In doing so, you should ask for consultation with SD Tribes and USFWS.

Julie Anderson

Rapid City SD

Position: oppose

Comment:

To: SDGF&P regarding 2020-2029 River Otter Management Plan

I object to this plan because of the reason for its inception, which is to pay trappers for the pelts of the otters inadvertently killed in beaver traps. The population does not warrant delisting, nor are the population numbers given reliable. GF&P admits monitoring otters is difficult, and a better system will eventually be developed. A reliable monitoring system should be established before any thought is given to delisting. There should also be efforts made to prevent otters from falling victim to beaver traps by moving the trap trigger. This would alleviate the need for delisting in the first place. To subject otters to excruciating pain and suffering and risk the extinction of the species in this state to put money into the pockets of a few is cruel, foolhardy and unnecessary.

The time and opportunity has come for this agency to address the majority of people who want to see wildlife in their natural habitat. SDGF&P should scrap the current plan in favor of creating and establishing a river otter tour. This is a much more profitable endeavor, as people love to watch otters, and current tours in other states charge from \$100 to \$150 per person. This would also open up opportunities for professional photography tours as well, which could bring in additional revenue. This would also provide a chance to study the river otter and its population numbers in depth, and at the same time become a reliable source of income. River Otter tours would also spur growth in the state's tourism industry by providing new jobs.

Please take this opportunity to move this agency into a new direction that will provide economic sustainability and find a whole new group of people wanting to experience South Dakota's rich wildlife heritage.

Thank You,

Julie Anderson

I am in Support of the fee waiver, because we never gave up our treaty rights. I am in support of Yankton Sioux Tribe members having the fees waived. For our tribal members, Land is more than just ground beneath our feet. We try and protect our land and water, not for us but for future generations. We have strong ties to our land and have remained resilient even when our own lands were taken from us. Conflicts over the use and ownership of Native lands are not new. Land has been at the center of virtually every significant interaction between Natives and non-Natives since the earliest days of European contact with the indigenous peoples of North America. By the 19th century, federal Indian land policies divided communal lands among individual tribal members in a proposed attempt to make them into farmers. The result instead was that struggling tribes were further dispossessed of their land. In recent decades, tribes, corporations, and the federal government have fought over control of Native land and resources in contentious protests and legal actions, This would be a good step forward for all people's involved.

As a lifelong resident, and member of the Yankton Sioux Tribe, I feel that free access is highly beneficial for all. We utilize the river in not only recreational/ entertainment ways, but also in conducting ceremonies, etc there. We have a bloodline connection to the river. There is a deep and sad history our previous generations lived through, as the dam was built. We remember the sacredness and connection to our relatives. It's a step forward to acknowledge the history of the area, and to understand the river is not just for fun and enjoyment, it's also a place where we pray.

Comment:

Because of violations of Treaties with the Yankton Sioux/Ihanktonwan Dakota and continued violations of these treaties, this is one step of ratifying what the United States really owes our People, we were promised free electricity for our People while they were being flooded out of their homes, and to this day we have never received free electricity, the US government, i.e. the U.S. Corps. of Engineers has never honored our Treaties, once the lands at Pickstown were done in creating the dam, it was to be given back to the Ihanktonwan Nation/Yankton Sioux Tribe but, instead of honoring the treaty, the courts decided to give the lands to the so called city/town of Pickstown. Our People's remains were found along the shores of White Swan, and were desecrated. Imagine, the government said, we're going to take your home and there isn't anything you can do about it, even though there is a treaty/legal document saying this is your home, oh and by the way, if you don't comply with this order, we are going to take your children and if you don't give your children up, we are going to withhold the funds and annuities we promised you in a legal document called a "TREAT"

I support the measure to give Yankton Sioux Tribal members free access to the local park land. I rarely use my passes but each year I purchase at least 2 if not more passes to access the river for those times my children wish to go to the river, or when relatives who are visiting want to go.

Although I would propose a slight raise in Out of State passes for the privilege of using the land , I would be willing to pay even a little more for my own passes to give YST members the right to access land that was historically under their stewardship to begin with.

I am a former resident of the Lake Andes community and a 6th generation South Dakotan. I would like to offer my support for the finalization of the proposal to exempt enrolled Yankton Sioux Tribal members and their families from the purchase of park entrance licenses at North Point Recreation Area, Fort Randall South Shore Recreation Area, Randall Creek Recreation Area and Fort Randall Spillway Lakeside Use Area. This exemption provides access to traditional use areas by the YST and provides increased outdoor recreation opportunities that were previously free in the area. I would like to thank the commission for unanimously supporting this proposal.

Although not part of this proposal, I would also urge the commission to consider a different fee structure for South Dakota residents for the annual park pass such as that in Idaho where it is \$10 a year for every registered vehicle. Further, consideration to residents of local communities for fee free access days (or fee free passes) would ensure that residents of local communities have reasonable access to public lands that is not an economic burden within their community. Access to these lands were previously fee free for everyone's enjoyment. I realize that fees help support maintenance and upkeep of these lands, but fees should not be an impediment in the community for simple enjoyment such as swimming, picnicking with your family and other outdoor recreation opportunities.

I believe the parks and areas along the river in question are within the reservation boundries and any tribal member should be allowed free access. Also, it should not be required for anyone with a tribal ID to have a fishing license as it is an inherent right to provide food and sustenance in order to survive. I know similar areas along the Lower Brule and Crow Creek Sioux tribes, indigenous persons are not required to pay a fee to use river access areas and are not required to have a license to fish. I support indigenous peoples free access and use based on sovereign and inherent rights.

I don't believe the State of South Dakota owns the Taken areas on the Yankton Sioux Reservation. I would like the State recognize that this area is saturated with burials and some ancient mounds that were not demolished like the ones in the Picktown town site were. I hope that the State has the moral conviction to right a wrong. You local governments and business people will eventually put a monetary value on these areas and as always destroy the natural beauty of what remains. I would at least request the State to return the Whit Swan area and the Area between St Francis Bay and the Prairie Dog Bay Area. I would like a nature preserve established with on limited cultural activity and primitively camping allowed. Everyone can still access the current areas.

1-26-24 Tentative or proposed decision served on parties--Contents--Waiver.

1-26-25 Form, contents and notice of decisions, orders and findings.

1-26-26 Ex parte communications by agency personnel in contested cases--Investigating officer disqualified from decision making--Authorized communications.

1-26-27 License proceeding treated as contested case.

1-26-28 Extension of existing license or right to continue activity extended during renewal or licensing proceedings and for ten days following notice of determination.

1-26-29 Notice and hearing required for revocation or suspension of license--Emergency suspension.

1-26-29.1 Costs of disciplinary hearing.

1-26-30 Right to judicial review of contested cases--Preliminary agency actions.

1-26-30.1 Right of appeal when agency fails to act in contested case.

1-26-30.2 Appeal from final action in contested case.

1-26-30.3 Conduct of appeals.

1-26-30.4 Scope of sections on appeals to circuit courts.

1-26-30.5 Suspension of sections on appeals to circuit courts.

1-26-31 Notice of appeal--Time for service and filing.

1-26-31.1 Venue of appeal.

1-26-31.2 Contents of notice of appeal.

1-26-31.3 Change of venue.

1-26-31.4 Contested cases--Statement of issues on appeal.

1-26-32 When agency decision in contested case becomes effective--Application for stay pending appeal--Time--Granting of further stay--Security or other supervision--Inapplicability to determinations of benefits under Title 61.

1-26-32.1 Procedural rules applied.

- 1-26-32.2 Request for transcript--Waiver by failure to request.
- 1-26-32.3 Costs of transcript--Endorsement of order by reporter--Extension of time for transcript.
- 1-26-32.4 Form of transcript--Number of copies--Certification.
- 1-26-33 Record transmitted to circuit court--Limitation of record--Corrections and additions.
- 1-26-33.1 Transferred.
- 1-26-33.2 Time for serving briefs.
- 1-26-33.3 Brief of appellant--Contents.
- 1-26-33.4 Brief of appellee--Contents.
- 1-26-33.5 Repealed.
- 1-26-33.6 Speedy hearing and determination.
- 1-26-34 Circuit court may order agency to take additional evidence.
- 1-26-35 Nonjury review in circuit court--Proof of irregularities--Oral argument discretionary.
- 1-26-36 Weight given to agency findings--Disposition of case--Grounds for reversal or modification--Findings and conclusions--Costs.
- 1-26-36.1 Appellee's right to obtain review.
- 1-26-37 Appeal to Supreme Court.
- 1-26-38 Suspension of provisional rules by interim committee--Hearing on suspension--Filing and duration of suspension.
- 1-26-38.1 Amendment as provisional--Subject to suspension--Effect.
- 1-26-39 Repealed.
- 1-26-40 Severability of provisions.
- 1-26-41 Citation of chapter.
- 1-26-1. Definition of terms.

Terms used in this chapter mean:

- (1) "Agency," each association, authority, board, commission, committee, council, department, division, office, officer, task force, or other agent of the state vested with the authority to exercise any portion of the state's sovereignty. The term includes a home-rule municipality that has adopted its own administrative appeals process, whose final decisions, rulings, or actions rendered by that process are subject to judicial review pursuant to this chapter. The term does not include the Legislature, the Unified Judicial System, any unit of local government, or any agency under the jurisdiction of such exempt departments and units unless the department, unit, or agency is specifically made subject to this chapter by statute;
- (2) "Contested case," a proceeding, including rate-making and licensing, in which the legal rights, duties, or privileges of a party are required by law to be determined by an agency after an opportunity for hearing but the term does not include the proceedings relating to rule making other than rate-making, proceedings related to inmate disciplinary matters as defined in § 1-15-20, or student academic proceedings under the jurisdiction of the Board of Regents;
- (3) "Emergency rule," a temporary rule that is adopted without a hearing or which becomes effective less than twenty days after filing with the secretary of state, or both;
- (4) "License," the whole or part of any agency permit, certificate, approval, registration, charter, or similar form of permission required by law;
- (5) "Licensing," the agency process respecting the grant, denial, renewal, revocation, suspension, annulment, withdrawal, or amendment of a license;
- (6) "Party," each person or agency named or admitted as a party, or properly seeking and entitled as of right to be admitted as a party;
- (7) "Person," all political subdivisions and agencies of the state;
- (8) "Rule," each agency statement of general applicability that implements, interprets, or prescribes law, policy, procedure, or practice requirements of any agency. The term includes the amendment or repeal of a prior rule, but does not include:
 - (a) Statements concerning only the internal management of an agency and not affecting private rights or procedure available to the public;

- (b) Declaratory rules issued pursuant to § 1-26-15;
- (c) Official opinions issued by the attorney general pursuant to § 1-11-1;
- (d) Executive orders issued by the Governor;
- (e) Student matters under the jurisdiction of the Board of Regents;
- (f) Actions of the railroad board pursuant to § 1-44-28;
- (g) Inmate disciplinary matters as defined in § 1-15-20;
- (h) Internal control procedures adopted by the Gaming Commission pursuant to § 42-7B-25.1;
- (i) Policies governing specific state fair premiums, awards, entry, and exhibit requirements adopted by the State Fair Commission pursuant to § 1-21-10;
- (j) Lending procedures and programs of the South Dakota Housing Development Authority; and
- (8A) "Small business," a business entity that employs twenty- five or fewer full-time employees.
- (9) "Substantial evidence," such relevant and competent evidence as a reasonable mind might accept as being sufficiently adequate to support a conclusion.

1-26-1.1. Interim Rules Review Committee created--Composition--Appointments--Terms of office--Vacancies.

There is hereby created a legislative committee of six members, no more than four of whom shall be of the same political party, which shall be designated the Interim Rules Review Committee. The committee shall be composed of three members of the Senate to be appointed by the president pro tempore of the Senate and three members of the House of Representatives to be appointed by the speaker of the House of Representatives and no more than two senators and two representatives shall be of the same political party. Members shall be appointed prior to the adjournment of each regular session in odd-numbered years and shall serve for two-year terms ending at noon on the second Tuesday in January in each odd-numbered year; however, members shall serve until their successors are appointed. Vacancies on the committee shall be filled by the original appointing authority for the remainder of the term. A vacancy shall exist whenever a committee member ceases to be a member of the Legislature.

Source: SL 1972, ch 8, § 1; SL 1975, ch 16, § 9; SL 1983, ch 13, § 1; SL 2005, ch 17, § 1.

1-26-1.2. Chair of rules review committee--Schedule of meetings--Compensation of members--Secretary.

The interim rules review committee shall choose a chair from its members and prescribe its rules of procedure. Meetings of the committee shall be at the call of the chair or a majority of the committee. On or before the first Monday following the last day of the legislative session, the committee and the agencies shall determine a schedule of dates for meetings to be held during the following twelve months. However, the committee is not required to hold a meeting if no proposed rules have been filed pursuant to subdivision 1-26-6(4) prior to the meeting.

The committee shall review all proposed agency rules and make recommendations to the agencies regarding rules and legislation authorizing rules and to the Legislature regarding administrative law. All meetings, regular or special, shall be open to the public and any interested person may be heard and present evidence.

Members of the committee shall be compensated for their attendance at meetings and for time spent in conduct of committee business at rates established by the Executive Board of the Legislative Research Council. The director of the Legislative Research Council, or one or more persons from the director's office, shall act as secretary to the committee, or the committee may employ a secretary.

1-26-1.3. Delegation of duties by director.

The director may delegate the duties imposed by this chapter to other persons in the Legislative Research Council's office. Each person to whom the duties are delegated has the same power and authority as the director for the purposes of this chapter. The papers specifying the delegation of duties shall be filed with the secretary of state.

Source: SL 1977, ch 13, § 11; SL 1989, ch 16, § 2; SL 2009, ch 9, § 1.

1-26-2. Agency materials available for public inspection--Derogatory materials.

Each agency shall make available for public inspection all rules, final orders, decisions, opinions, intra-agency memoranda, together with all other materials, written statements of policy or interpretations formulated, adopted, or used by the agency in the discharge of its functions. An agency shall hold confidential materials derogatory to a person but such information shall be made available to the person to whom it relates.

Source: SDC 1939, § 55.1203; SL 1966, ch 159, § 2; SL 1972, ch 8, § 4.

1-26-2.1. Small business impact statements--Content.

An agency shall, when submitting any proposed rule that will have a direct impact on small business, prepare an impact statement that includes the following:

- (1) A narrative explanation in plain, easy-to-read language of the effect of the rule on small business, the basis for its enactments, and why the rule is needed;
- (2) An identification and estimate of the number of small businesses subject to the proposed rule;
- (3) The projected reporting and recordkeeping required for compliance with the proposed rule, including the types of professional skills necessary for preparation of the report or record;
- (4) A statement of the probable effect on impacted small business; and
- (5) A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed rule.

An agency is only required to use readily available information and existing resources to prepare the impact statement.

Source: SL 2004, ch 20, § 2; SL 2006, ch 8, § 1.

1-26-2.2. Repealed by SL 2006, ch 7, § 1.

1-26-3. Repealed by SL 1972, ch 8, § 36.

1-26-4. Notice, service, and hearing required for adoption, amendment, or repeal of rules--Service on interim rules committee--Waiver of service.

The following notice, service, and public hearing procedure shall be used to adopt, amend, or repeal a permanent rule:

- (1) An agency shall serve a copy of a proposed rule and any publication described in § 1-26-6.6 upon the departmental secretary, bureau commissioner, public utilities commissioner, or constitutional officer to which it is attached for the secretary's, commissioner's, or officer's written approval to proceed;
- (2) After receiving the written approval of the secretary, commissioner, or officer to proceed, the agency shall serve the director with a copy of: the proposed rules; any publication described in § 1-26-6.6; the fiscal note described in § 1-26-4.2; the impact statement on small business described in § 1-26-2.1; and the notice of hearing required by § 1-26-4.1. The copy of these documents shall be served at least twenty days before the public hearing to adopt the proposed rules. Any publication described in § 1-26-6.6 shall be returned to the agency upon completion of the director's review and retained by the agency. Also, twenty days before the public hearing, the agency shall serve the commissioner of the Bureau of Finance and Management with a copy of: the proposed rules; the fiscal note described in § 1-26-4.2; the impact statement on small business described in § 1-26-2.1; and the notice of hearing required by § 1-26-4.1;
- (3) The agency shall publish the notice of hearing in the manner prescribed by § 1-26-4.1, at least twenty days before the public hearing;

- (4) After reviewing the proposed rule pursuant to § 1-26-6.5, the director shall advise the agency of any recommended corrections to the proposed rule. If the agency does not concur with any recommendation of the director, the agency may appeal the recommended correction to the Interim Rules Review Committee for appropriate action;
- (5) The agency shall afford all interested persons reasonable opportunity to submit amendments, data, opinions, or arguments at a public hearing held to adopt the rule. The hearing may be continued from time to time. The agency shall keep minutes of the hearing. A majority of the members of any board or commission authorized to pass rules must be present during the course of the public hearing;
- (6) If the authority promulgating the rule is a secretary, commissioner, or officer, the agency shall accept written comments regarding the proposed rule for a period of ten days after the public hearing. If the authority promulgating the rule is a part-time citizen board, commission, committee, or task force, each interested person is required to submit written comments at least seventy-two hours before the public hearing. The seventy-two hours does not include the day of the public hearing. The written comments may be submitted by mail or email. The record of written comments may be closed at the conclusion of the public hearing. However, the hearing may be specifically continued for the purpose of taking additional comments;
- (7) After the written comment period, the agency shall fully consider all amendments, data, opinions, or arguments regarding the proposed rule. A proposed rule may be modified or amended at this time to include or exclude matters which were described in the notice of hearing; and
- (8) The agency shall serve the minutes of the hearing, a complete record of written comments, the impact statement on small business, the fiscal note, the information required in § 1-26-4.8, and a corrected copy of the rules on the members of the Interim Rules Review Committee at least five days before the agency appears before the committee to present the rules.

The time periods specified in this section may be extended by the agency. The requirement to serve the committee in subdivision (8) may be waived by the committee chair if the agency presents sufficient reasons to the committee chair that the agency is unable to comply with the time limit. The waiver may not be granted solely for the convenience of the agency.

Source: SL 1966, ch 159, § 3; SL 1972, ch 8, § 5; SL 1974, ch 16, § 4; SL 1975, ch 16, § 10; SL 1975, ch 18; SL 1976, ch 15, § 1; SL 1976, ch 27, § 2; SL 1977, ch 13, § 3; SL 1978, ch 13, § 1; SL 1979, ch 8, § 1; SL 1981, ch 8; SL 1986, ch 20, § 1; SL 1989, ch 16, § 3; SL 1996, ch 11, § 1; SL 1997, ch 10, § 1; SL 1998, ch 9, § 1; SL 2001, ch 11, § 1; SL 2002, ch 15, § 1; SL 2004, ch 20, § 3; SL 2005, ch 18, § 1; SL 2009, ch 9, § 2; SL 2017, ch 7, § 2.

1-26-4.1. Notice of hearing on proposed rule--Contents--Publication--Mailing.

The notice of a public hearing of an agency's intent to adopt, amend, or repeal a rule shall be published in a manner selected to notify persons likely to be affected by the proposed rule. At a minimum the notice of the public hearing shall be published in at least three newspapers of general circulation in different parts of the state. The provisions of chapter 17-2 do not apply to notices required by this section.

The notice of a public hearing or the notice of intent to adopt an emergency rule shall be mailed to each person who has made a timely request of the agency for advance notice of its rule-making proceedings. A notice of hearing or a notice of intent to adopt emergency rules shall contain a narrative description of the effect of the proposed rule and the reasons for adopting the proposed rule. A notice of hearing shall also state where and when the hearing will be held, how amendments, data, opinions, and arguments may be presented, the deadline to submit written comments, and how the public may obtain copies of the proposed rule.

Source: SL 1972, ch 8, § 6; SL 1975, ch 16, § 13; SL 1976, ch 15, § 2; SL 1977, ch 13, § 5; SL 1978, ch 13, § 2; SL 1984, ch 9, § 1; SL 1986, ch 20, § 2; SL 2009, ch 9, § 3; SL 2017, ch 7, § 3.

1-26-4.2. Fiscal note submitted with proposed rule--Fiscal note of bureau--Transmitting copies.

An agency shall, when submitting any proposed rule except an emergency rule, include a fiscal note. The fiscal note shall state what effect, if any, the proposed rule will have on the revenues, expenditures, or fiscal liability of the state or its agencies and subdivisions. The fiscal note shall include an explanation of how such effect, if any, was computed.

The Bureau of Finance and Management shall prepare its own fiscal note and serve it on the agency, the director and the cochairmen of the Joint Appropriations Committee prior to hearing. If a proposed rule has a negative fiscal impact on a political subdivision, the agency shall direct the bureau to transmit a copy of the bureau's fiscal note to the South Dakota Municipal League, the Associated School Boards of South Dakota, and the South Dakota County Commissioners Association, prior to the hearing.

Source: SL 1975, ch 15; SL 1976, ch 15, § 3; SL 1977, ch 15; SL 1983, ch 5, § 1; SL 1989, ch 16, § 4.

1-26-4.3. Rule review by Interim Rules Review Committee before filing--Time limits.

No permanent rule may be filed with the secretary of state without the review of the rule by the Interim Rules Review Committee. No permanent rule may be filed with the secretary of state if more than sixty days have passed from the date the Interim Rules Review Committee adopts a motion that the rule-making process is complete. No emergency rule may be adopted if more than thirty days have passed from the date the notice of intent to adopt an emergency rule was published in the manner prescribed in § 1-26-4.1.

Source: SL 1975, ch 16, § 14; SL 1987, ch 23; SL 1989, ch 16, § 5; SL 1991, ch 12; SL 1996, ch 11, § 2; SL 2000, ch 4, § 1; SL 2016, ch 12, § 1.

1-26-4.4. Time for promulgation of rules after passage of legislative authority.

If an act of the Legislature, which becomes effective on the date set by § 2-14-16, contains an authorization for an agency to promulgate rules, the agency may perform the acts specified in § 1-26-4 or 1-26-5 any time after the Governor has signed the act containing the authorization to promulgate rules. However, the rules do not become effective until the act authorizing the agency to promulgate rules is effective.

Source: SL 1977, ch 13, § 4; SL 1986, ch 20, § 4; SL 1989, ch 17.

1-26-4.5. Validation of prior notices of hearings--Limitation on enforcement of vested rights affected.

All notices of hearings on the adoption of rules made prior to July 1, 1984, are hereby in all respects legalized and validated. If a person has a vested right in any real or personal property by reason of an error in a notice or an error in the method of giving a notice referred to in this section, and if no action or proceeding to enforce such right was commenced prior to July 1, 1985, such right shall be forever barred. An action or proceeding involving real property may not be brought or maintained in a court of this state unless a notice of such action, made in accordance with chapter 15-10, was recorded in the office of the register of deeds of the county in which the affected real property is located prior to July 1, 1985.

Source: SL 1984, ch 9, § 3.

1-26-4.6. Notices of intent to adopt emergency rules validated--Time for enforcing rights by reason of error in notice--Recordation of notice prerequisite to suit under § 1-26-4.1. .

All notices of intent to adopt emergency rules made prior to March 14, 1985, are hereby in all respects legalized and validated. If a person has a vested right in any real or personal property by reason of an error in a notice or an error in the method of giving a notice referred to in subdivision 1-26-4(2), and if no action or proceeding to enforce such right was commenced prior to July 1, 1986, such right is forever barred.

An action or proceeding brought pursuant to § 1-26-4.1 involving real property may not be brought or maintained in a court of this state unless a notice of such action, made in accordance with chapter 15-10, was recorded in the office of the register of deeds of the county in which the affected real property is located prior to July 1, 1987.

Source: SL 1986, ch 20, § 3.

1-26-4.7. Reversion to step in adoption procedure.

The Interim Rules Review Committee may require an agency to revert to any step in the adoption procedure provided in § 1-26-4 if, in the judgment of the committee:

- (1) The substance of the proposed rule has been significantly rewritten from the originally proposed rule which was not the result of testimony received from the public hearing;
- (2) The proposed rule needs to be significantly rewritten in order to accomplish the intent of the agency;
- (3) The proposed rule needs to be rewritten to address the recommendations or objections of the Interim Rules Review Committee;
- (4) The proposed rule is not a valid exercise of delegated legislative authority;
- (5) The proposed rule is not in proper form;
- (6) The notice given prior to the proposed rule's adoption was not sufficient to give adequate notice to persons likely to be affected by the proposed rule;
- (7) The proposed rule is not consistent with the expressed legislative intent pertaining to the specific provision of law which the proposed rule implements;
- (8) The proposed rule is not a reasonable implementation of the law as it affects the convenience of the general public or persons likely affected by the proposed rule; or
- (9) The proposed rule may impose more than nominal costs upon a unit of local government or school district when the unit of local government or school district may not have sufficient funding to perform the activity required by the proposed rule.

If the committee requires an agency to revert to any step in the adoption procedure pursuant to this section, the time limitations set by chapter 1-26 shall also revert to the same step.

Source: SL 1990, ch 21; SL 2003, ch 17, § 1; SL 2004, ch 21, § 1; SL 2010, ch 8, § 1; SL 2011, ch 10, § 1.

1-26-4.8. Fee increase in proposed rule--Agency financial resource information--Submission to review committee.

If an agency proposes a rule to increase a fee, the agency shall provide information to the Interim Rules Review Committee about the financial resources available to the agency. This information consists of the agency's beginning fund balance, receipts, disbursements, ending fund balance for each of the last two fiscal years and consists of the agency's beginning fund balance, projected receipts, projected disbursements, and ending balance for the current fiscal year and the next fiscal year.

Source: SL 2005, ch 18, § 3.

1-26-4.9. Authority of Interim Rules Review Committee.

The Interim Rules Review Committee may:

- (1) Declare that the rule-making process is complete to the satisfaction of the committee;
- (2) Revert the rule to an earlier step in the rule adoption procedure pursuant to § 1-26-4.7 to consider an amendment to the proposed rule; or
- (3) Move to suspend the proposed rule pursuant to § 1-26-38.

Source: SL 2013, ch 10, § 1.

1-26-4.10. Resubmission of amended rule to review committee--Hearing not required.

If the Interim Rules Review Committee reverts a rule to consider amendments to the proposed rule, the agency may make the amendment and resubmit the rule as amended at the next meeting of the Interim Rules Review Committee. An agency is not required to hold a hearing on an amendment made under this section. If the agency makes the amendment, the amended rule shall be published in the next register.

Source: SL 2013, ch 10, § 2.

1-26-5. Notice of proposed emergency rule--Service--Use of emergency rule adoption procedure.

Prior to the adoption or amendment of an emergency rule, an agency shall publish a notice of intent to adopt an emergency rule in the manner prescribed in § 1-26-4.1 and shall serve on the person specified by subdivision 1-26-4(1), each member of the Interim Rules Review Committee, and the director:

- (1) A copy of the proposed rule, which shall bear a special number to distinguish it from a permanent rule;
- (2) Any publication described in § 1-26-6.6 which shall be returned to the agency upon completion of the director's review and retained by the agency; and
- (3) A statement, with the reasons, that the emergency procedure is necessary: because of imminent peril to the public health, safety, or welfare; to prevent substantial unforeseen financial loss to state government; or because of the occurrence of an unforeseen event at a time when the adoption of a rule in response to such event by the emergency procedure is required to secure or protect the best interests of the state or its residents.

Any agency may use the emergency rule adoption procedure. However, no agency may use the emergency rule adoption procedure for the convenience of the agency merely to avoid the consequences for failing to timely promulgate rules.

Source: SL 1966, ch 159, § 3; repealed SL 1972, ch 8, § 36; re-enacted SL 1975, ch 16, § 11; SL 1978, ch 13, § 3; SL 1986, ch 20, § 5; SL 1989, ch 16, § 6; SL 1990, ch 22; SL 1997, ch 11, § 1; SL 1998, ch 9, § 3; SL 2003, ch 17, § 2; SL 2006, ch 4, § 3; SL 2009, ch 9, § 4.

1-26-5.1. Temporary suspension by emergency rule--Reversion of amended rule to original form.

A rule may be temporarily suspended, but not repealed, by the adoption of an emergency rule. A rule amended by an emergency rule will revert to its original form ninety days after it has been in effect or at an earlier date if so specified in the rule, unless further amended within that period.

Source: SL 1975, ch 16, § 15; SL 1977, ch 13, § 6.

1-26-5.2. Repealed by SL 1979, ch 8, § 2.

1-26-6. Completion of adoption of rule or change in rules.

The adoption, amendment, or repeal of a rule is complete when:

- (1) All the requirements of § 1-26-4 have been completed or, if the rule is an emergency rule, three days have passed since all the requirements of § 1-26-5 have been complied with;
- (2) It has been signed by a majority of the members of the multi-member body or by the officer having the authority to adopt it;
- (3) It has been signed by the director;
- (4) A copy has been filed with the director, in a form prescribed by the director to show amendments, deletions, and other changes to existing rules, for use in preparation of copy for the Administrative Rules of South Dakota;
- (5) The rule and a certificate have been filed with the secretary of state. The certificate shall affirm that the rule filed is a true and correct copy of the rule as adopted and that the agency has complied with § 1-26-4 or 1-26-5, and with this section; and
- (6) For a permanent rule, the agency has appeared and presented the proposed rule to the Interim Rules Review Committee.

Certificates required by this section shall be affidavits executed, under oath, by the officers authorized by statute to promulgate the rule. If a rule is promulgated by a multi-member body, the certificate shall be signed by its presiding officer.

Emergency rules are provisionally effective immediately after being filed. Notwithstanding § 15-6-6(a), all other rules are provisionally effective on the twentieth day after being filed, not counting the day of filing. In either case a later effective date may be specified as part of the rules being filed. A rule which is not yet effective or a provisionally effective rule may be suspended in the manner specified by § 1-26-38 any time prior to the first day of July of the year following the year in which it became, or would have become, effective. The rule's provisional status ends at that time, and the rule may not thereafter be

suspended by the rules committee. Unless suspended, a provisionally effective rule shall be enforced by the agency and the courts as if it were not so conditioned.

No rule promulgated after June 30, 1975, is valid unless adopted in compliance with § 1-26-4 or 1-26-5, and this section and copies of the rule are made available to the public upon request, by the agency.

Source: SDC 1939, §§ 55.1203, 65.0106; SL 1966, ch 159, §§ 3, 4 (1); SDCL, § 1-26-7; SL 1972, ch 8, §§ 7, 10, 12; SDCL Supp, § 1-26-6.4; SL 1973, ch 9, § 1; SL 1974, ch 16, §§ 5, 7; SL 1975, ch 16, § 12; SL 1976, ch 15, § 4; SL 1977, ch 13, § 7; SL 1978, ch 13, § 4; SL 1986, ch 20, § 6; SL 1989, ch 16, § 7; SL 1998, ch 9, § 2; SL 2000, ch 4, § 2; SL 2004, ch 22, § 1.

1-26-6.1. Restriction on incorporation of statutory material.

An agency may refer to statute but may not incorporate statutory provisions, other than definitions, in their rules nor publish or distribute statutory material in conjunction with their rules unless required by law or expressly authorized by the Code Commission pursuant to § 2-16-8.1.

Source: SL 1972, ch 8, § 8; SL 1984, ch 10, § 1; SL 1995, ch 14, § 3.

1-26-6.2. Uniform style for rules--Required contents.

The director shall prescribe a uniform style in which rules shall be prepared and the standard form to be used in filing rules pursuant to this chapter. Such form shall contain a provision for a reference to be made by the agency for each rule proposed by it, citing its general authority to promulgate rules and then refer to the section, subdivision, or subsection of statute which the rule is intended to implement, and direct the agency to identify prior rules amended or repealed.

Source: SDC 1939, § 65.0106, 2nd par; repealed SL 1966, ch 159, § 19; re-enacted SL 1972, ch 8, § 9; SL 1989, ch 16, § 8.

1-26-6.3. Notice that rules do not conform--Redrafting and filing required.

The director may notify any agency whose rules are not in the proper style and form. A copy of this notice shall be filed with the secretary of state. One hundred eighty days after an agency receives such notification, the rules of that agency shall be of no further force and effect unless redrafted in the prescribed style and form and filed with the secretary of state and the director.

Source: SL 1972, ch 8, § 9; SL 1989, ch 16, § 9; SL 2009, ch 9, § 5.

1-26-6.4. Repealed by SL 1975, ch 16, § 25.

1-26-6.5. Review by director--Notice to agency of need for change.

The director shall review each rule for compliance with the requirements for form, style, and clarity. The director shall review each rule for legality. The review for legality is a determination that the rule is authorized by the standards provided in the statutes cited by the agency to promulgate the rule. The director shall review the statement of reasons that the emergency procedure is necessary. If the director finds need for change, the director shall make the requirements known in writing to the agency prior to the hearing or within three days in the case of emergency rules.

Source: SL 1972, ch 8, § 11; SL 1973, ch 9, § 2; SL 1974, ch 16, § 6; SL 1975, ch 16, § 18; SL 1986, ch 20, § 7; SL 1989, ch 16, § 10; SL 1990, ch 20, § 2; SL 2009, ch 9, § 6.

1-26-6.6. Incorporation by reference to generally available materials--Description--Reference note--Identification of agency and rule.

An agency may adopt other comprehensive regulations as its own by making reference to them in a rule, but only when the comprehensive regulations are published by an organization which is not part of the state government and only when the publication is generally available to the public at a reasonable cost. A rule which incorporates material by reference shall describe the exact section or portion of the publication which is being incorporated. Immediately following a rule which incorporates published material by reference, other than material contained in the code of federal regulations, the federal register, the United States code or the United States statutes at large, the agency shall place a reference

note which identifies the publication by its title, date of publication, or enactment and author, and which states where the publication may be obtained and its cost, if any. A statement shall be attached to the face of the publication which shall state the agency's name, the section number of the rule which incorporates the material within, and the date the rule was served pursuant to § 1-26-4 or 1-26-5 or filed pursuant to § 1-26-6.

Source: SL 1974, ch 16, § 11; SL 1975, ch 16, § 19.

1-26-6.7. Procedure for amendment, suspension or repeal of rules.

Once a rule has been adopted, it may not be amended, repealed, or suspended except by compliance with § 1-26-4 or 1-26-5, and with § 1-26-6, even if it has not taken effect.

Source: SL 1975, ch 16, § 16.

1-26-6.8. Rules unenforceable until properly adopted.

No agency rule may be enforced by the courts of this state until it has been adopted in conformance with the procedures set forth in this chapter.

Source: SL 1977, ch 13, § 8.

1-26-6.9. Licensing board or commission fees--Criteria and limitation.

If a professional or occupational licensing board or commission is authorized in statute to establish fees by rule and no maximum fee limit is specified, the fees shall be reasonable and necessary to provide enough money to meet the budgetary needs of the licensing board or commission for such things as: per diem, travel expenses, office expense, salaries and benefits, utilities, supplies, testing, licensing, inspections, disciplinary actions, and legal fees. However, the total amount of increase in the fees imposed by a licensing board or commission may not exceed the previous year's budget by more than twenty percent.

Source: SL 1986, ch 21.

1-26-6.10. Restriction of licensee's right or privilege to carry or possess pistol prohibited.

No state agency may adopt or promulgate any rule that restricts any right or privilege to carry or possess a pistol in contravention to authority being exercised in accordance with being licensed to carry a concealed pistol pursuant to chapter 23-7.

Source: SL 2006, ch 5, § 1.

1-26-7. Records retained--Copies--Public inspection of current rules.

Each agency shall keep the original records, documents, and instruments required by this chapter and shall make copies of all records, documents, and exhibits available to members of the Legislature upon request. The secretary of state shall keep a copy of the agency's current rules and the certificates pertaining thereto, which shall be open to public inspection.

Source: SDC 1939, §§ 55.1203, 65.0106; SL 1966, ch 159, § 4 (1); SL 1972, ch 8, § 12; SL 1974, ch 16, § 7; SL 1975, ch 16, § 20; SL 2009, ch 9, § 7.

1-26-7.1. Agency's statement of reasons for adoption or rejection of rule.

Upon adoption of a rule or upon the rejection of a petition filed pursuant to § 1-26-13, an agency, if requested to do so in writing by an interested person either prior to adoption or rejection or within thirty days thereafter, shall issue a written concise statement of the principal reasons for and against the rule's adoption, incorporating therein its reasons for overruling the considerations urged against the rule's adoption or rejection. A copy of the statement shall be served on the members of the Interim Rules Review Committee and the director of the Legislative Research Council.

Source: SL 1966, ch 159, § 3; SDCL, § 1-26-4 (2); SL 1972, ch 8, § 5; SL 1975, ch 16, § 17; SL 1983, ch 5, § 2; SL 1997, ch 12, § 1.

1-26-8. Effective date of rules--Emergency rules.

Each rule is effective twenty days after filing with the secretary of state, except that:

- (1) If a later date is required by statute or specified in the rule, the later date is the effective date;
- (2) Subject to applicable constitutional or statutory provisions, an emergency rule is effective immediately upon filing with the secretary of state, or at a stated date less than twenty days later. No emergency rule may remain in effect for a period of longer than ninety days.

Source: SDC 1939, § 65.0106; SL 1966, ch 159, § 4 (2); SL 1972, ch 8, § 13; SL 1975, ch 16, § 21; SL 1976, ch 15, § 5; SL 2009, ch 9, § 8.

1-26-8.1. Retroactive effect of acts prohibiting certain rules--Repealed or unconstitutional statutes--Effect of transfer of rule-making authority to another agency.

If an act is passed by the Legislature which prohibits an agency from passing rules relating to a certain subject, any prior rule promulgated by that agency relating to that subject shall become void on the effective date of the act.

If a statute which authorizes an agency to pass a rule is repealed, or declared unconstitutional by the South Dakota or United States Supreme Court, any rule which was authorized by that statute is void unless there is another valid statute which also authorized the agency to pass that rule. If an agency's authority to adopt rules is transferred to another agency, and no provision is specified for the disposition of the first agency's rules in the legislation or executive order which made the transfer, the rules of the first agency shall be the rules of the second agency until they are amended or repealed.

Source: SL 1977, ch 13, § 10; SL 1983, ch 5, § 3.

1-26-8.2. Petition for delay in effective date of rule--Grant or denial--Maximum delay--Filings--One delay--Repeal of rule.

After a rule has been adopted and filed with the secretary of state, any person may petition the agency which adopted the rule to delay the effective date of the rule. The petition must be filed with the agency at least ten days prior to the effective date of the rule. The agency must grant or deny the petition, with or without a hearing, within ten days of filing. If the petition is granted, the effective date of the rule may not be delayed more than ninety days. A copy of the petition and a statement of the agency justifying the granting of the petition shall be sent to the chairman of the Interim Rules Review Committee at the time the decision is made. A copy of the statement granting the petition shall be filed with the secretary of state at the time the decision is made.

The effective date of a rule may be delayed only once, and an agency may repeal the rule during the period of the delay.

Source: SL 1979, ch 8, § 5.

1-26-8.3. Retroactive effect of rule--Burden of proving authority or necessity.

If any rule is proposed to have retroactive effect, the burden is on the agency to show that the retroactivity is authorized by law or is necessary to implement new provisions of law.

Source: SL 1985, ch 13.

1-26-9. Transferred to § 1-26A-1.

1-26-10. Repealed by SL 1972, ch 8, § 36.

1-26-11. Pamphlet publication of rules--Supervision.

Each agency promulgating professional or regulatory examining and licensing rules or other rules under this chapter may cause the same, or any portion thereof, to be published in pamphlet form, subject to the supervision of the director regarding style and form and such other limitations of certification.

Source: SL 1972, ch 8, § 15; SL 1989, ch 16, § 11.

1-26-12. Distribution and sale of publications and copies of rules.

Publications and copies of rules authorized under or required by this chapter shall upon request be made available to agencies and officials of this state free of charge and to other persons at prices fixed by the Interim Rules Review Committee to cover mailing and publication costs. An agency may not charge the public for copies of notices or intentions to pass rules required by § 1-26-4.1. The provisions of § 1-8-10 except as to certification do not apply to copies of publications distributed by the secretary of state under this chapter.

Source: SDC 1939, § 65.0106; SL 1966, ch 159, § 5 (4); SL 1972, ch 8, § 16; SL 1977, ch 13, § 9; SL 1983, ch 5, § 4; SL 1984, ch 10, § 3.

1-26-12.1. List of rules and organizational statements.

To assist interested persons dealing with it, each agency which has adopted rules shall make available, either electronically or through paper copy, a list of the agency's rules and a descriptive statement of its central and field organization. This information includes the locations of persons and places from which the public can secure information, make submittals or requests, or obtain decisions.

Source: SL 1972, ch 8, § 17; SL 1975, ch 16, § 23; SL 2009, ch 9, § 9.

1-26-13. Petition for rules--Denial or initiation of proceedings--Copies to Interim Rules Committee and director.

An interested person, other than an inmate as defined in § 1-15-20.1, may petition an agency requesting the promulgation, amendment, or repeal of a rule. The petition shall contain the text or substance of any new rule or amendment sought, the identification of any rule sought to be repealed, reasons for the proposal, and the name and address of the petitioner. Within thirty days after submission of a petition, the agency either shall deny the petition in writing (stating its reasons for the denials) or shall initiate rule-making proceedings in accordance with § 1-26-4. The agency shall serve a copy of any petitions and denials on the members of the Interim Rules Review Committee and the director of the Legislative Research Council.

Source: SL 1966, ch 159, § 6; SL 1972, ch 8, § 18; SL 1975, ch 16, § 24; SL 1997, ch 12, § 2; SL 1999, ch 6, § 2.

1-26-13.1. Service complete when deposited in mail.

Notwithstanding § 15-6-6(e), any service required by §§ 1-26-1 to 1-26-13, inclusive, shall, when performed by mail, be complete when the material to be served is deposited with the United States postal service.

Source: SL 1977, ch 13, § 2.

1-26-14. Declaratory judgment on rules.

The validity or applicability of a rule may be determined in an action for declaratory judgment in the circuit court for the county of the plaintiff's residence, if it is alleged that the rule, or its threatened application, interferes with or impairs, or threatens to interfere with or impair, the legal rights or privileges of the plaintiff. The agency shall be made a party to the action. A declaratory judgment may be rendered whether or not the plaintiff has requested the agency to pass upon the validity or applicability of the rule in question.

Source: SL 1966, ch 159, § 7.

1-26-15. Declaratory rulings by agencies.

Each agency shall provide by rule for the filing and prompt disposition of petitions for declaratory rulings as to the applicability of any statutory provision or of any rule or order of the agency. No inmate as defined in § 1-15-20.1 may petition an agency for a declaratory ruling on the applicability of statutory provisions, rules, or orders of the agency. Rulings disposing of petitions have the same status as agency decisions or orders in contested cases. A copy of all such rulings shall be filed with the director for publication in the Administrative Rules of South Dakota.

Source: SL 1966, ch 159, § 8; SL 1979, ch 8, § 3; SL 1989, ch 16, § 12; SL 1990, ch 20, § 3; SL 1993, ch 19, § 8; SL 1995, ch 8, § 13; SL 1999, ch 6, § 3.

1-26-16. Notice and hearing required in contested cases.

In a contested case, all parties shall be afforded an opportunity for hearing after reasonable notice.

Source: SL 1966, ch 159, § 9 (1).

1-26-16.1. Repealed by SL 1983, ch 7.

1-26-17. Contents of notice in contested cases.

The notice shall include:

- (1) A statement of the time, place, and nature of the hearing;
- (2) A statement of the legal authority and jurisdiction under which the hearing is to be held;
- (3) A reference to the particular sections of the statutes and rules involved;
- (4) A short and plain statement of the matters asserted. If the agency or other party is unable to state the matters in detail at the time the notice is served, the initial notice may be limited to a statement of the issues involved. Thereafter upon application a more definite and detailed statement shall be furnished;
- (5) A statement of any action authorized by law, which may affect the parties, as a result of any decision made at the hearing, whether it be the revocation of a license, the assessment of a fine or other effect;
- (6) A statement that the hearing is an adversary proceeding and that a party has the right at the hearing, to be present, to be represented by a lawyer, and that these and other due process rights will be forfeited if they are not exercised at the hearing;
- (7) Except in contested cases before the Public Utilities Commission, a statement that if the amount in controversy exceeds two thousand five hundred dollars or if a property right may be terminated, any party to the contested case may require the agency to use the Office of Hearing Examiners by giving notice of the request to the agency no later than ten days after service of a notice of hearing issued pursuant to § 1-26-17;
- (8) A statement that the decision based on the hearing may be appealed to the circuit court and the State Supreme Court as provided by law.

Source: SL 1966, ch 159, § 9 (2); SL 1978, ch 14, § 1; SL 2003, ch 18, § 3; SL 2007, ch 7, § 1.

1-26-17.1. Intervention in contested case by person with pecuniary interests.

A person who is not an original party to a contested case and whose pecuniary interests would be directly and immediately affected by an agency's order made upon the hearing may become a party to the hearing by intervention, if timely application therefor is made.

Source: SL 1978, ch 13, § 5.

1-26-18. Rights of parties at hearings on contested cases--Summary disposition of certain cases.

Opportunity shall be afforded all parties to respond and present evidence on issues of fact and argument on issues of law or policy. However, each agency, upon the motion of any party, may dispose of any defense or claim:

- (1) If the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and a party is entitled to a judgment as a matter of law; or
- (2) At the close of the evidence offered by the proponent of the defense or claim if it determines that the evidence offered by the proponent of the defense or claim is legally insufficient to sustain the defense or claim.

A party to a contested case proceeding may appear in person or by counsel, or both, may be present during the giving of all evidence, may have reasonable opportunity to inspect all documentary evidence, may examine and cross-examine witnesses, may present evidence in support of the party's interest, and may have subpoenas issued to compel attendance of witnesses and production of evidence in the party's behalf.

Source: SL 1966, ch 159, § 9 (3); SL 1972, ch 8, § 19; SL 1978, ch 13, § 6; SL 2002, ch 16, § 1.

1-26-18.1, 1-26-18.2. Repealed by SL 1995, ch 8, §§ 14, 15.

1-26-18.3. Request to use Office of Hearing Examiners in certain contested cases.

In any contested case, if the amount in controversy exceeds two thousand five hundred dollars or if a property right may be terminated, any party to the contested case may require the agency to use the Office of Hearing Examiners by giving notice of the request no later than ten days after service of a notice of hearing issued pursuant to § 1-26-17. This section does not apply to any contested case before the Public Utilities Commission.

Source: SL 1995, ch 8, § 18; SL 2003, ch 18, § 1; SL 2007, ch 7, § 2.

1-26-19. Rules of evidence in contested cases.

In contested cases:

- (1) Irrelevant, incompetent, immaterial, or unduly repetitious evidence shall be excluded. The rules of evidence as applied under statutory provisions and in the trial of civil cases in the circuit courts of this state, or as may be provided in statutes relating to the specific agency, shall be followed. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not otherwise admissible thereunder may be admitted except where precluded by statute if it is of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. Agencies shall give effect to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. Subject to these requirements, when a hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be received in written form;
- (2) A party may conduct cross-examinations required for a full and true disclosure of the facts;
- (3) Notice may be taken of judicially cognizable facts. In addition, notice may be taken of generally recognized technical or scientific facts within the agency's specialized knowledge. Parties present at the hearing shall be informed of the matters to be noticed, and those matters shall be noted in the record, referred to therein, or appended thereto. Any such party shall be given a reasonable opportunity on request to refute the officially noticed matters by evidence or by written or oral presentation of authority, the manner of such refutation to be determined by the agency.

Source: SL 1966, ch 159, § 10; SL 1972, ch 8, § 20; SL 1985, ch 15, § 9.

1-26-19.1. Administration of oaths--Subpoena powers--Witness fees--Disobedience of subpoena.

Each agency and the officers thereof charged with the duty to administer the laws of this state and rules of the agency shall have power to administer oaths as provided by chapter 18-3 and to subpoena witnesses to appear and give testimony and to produce records, books, papers and documents relating to any matters in contested cases and likewise issue subpoenas for such purposes for persons interested therein as provided by § 15-6-45. Unless otherwise provided by law fees for witnesses shall be as set forth in chapter 19-5 and be paid by the agency or party for whom the witness is subpoenaed.

Failure of a person to obey the subpoena issued pursuant to this chapter may be punished as a contempt of court in the manner provided by chapter 21-34.

Source: SL 1972, ch 8, § 21.

1-26-19.2. Depositions of witnesses.

Each agency and the officers thereof charged with the duty to administer the laws and rules of the agency shall have power to cause the deposition of witnesses residing within or without the state or absent therefrom to be taken or other discovery procedure to be conducted upon notice to the interested person, if any, in like manner that depositions of witnesses are taken or other discovery procedure is to be conducted in civil actions pending in circuit court in any matter concerning contested cases.

Source: SL 1972, ch 8, § 22.

1-26-20. Agreed disposition of contested cases.

Unless precluded by law, informal disposition may be made of any contested case by stipulation, agreed settlement, consent order, or default.

Source: SL 1966, ch 159, § 9 (4).

1-26-21. Contents of record in contested cases.

The record in a contested case shall include:

- (1) All pleadings, motions, intermediate rulings;
- (2) Evidence received and considered;
- (3) A statement of matters officially noticed which have been refuted;
- (4) Questions and offers of proof, objections, and rulings thereon;
- (5) Proposed findings and exceptions;
- (6) Any decision, opinion, or report by the officer presiding at the hearing;
- (7) All staff memoranda or data submitted to the hearing officer or members of the agency in connection with their consideration of the case.

Source: SL 1966, ch 159, § 9 (5); SL 1972, ch 8, § 23.

1-26-22. Transcript in contested cases--Minutes in lieu of transcript.

Whenever a party requests in writing that oral proceedings be transcribed, a verbatim record of all proceedings and testimony shall be kept by the agency. Unless otherwise provided by law the agency shall not be required to transcribe the record unless the requesting party tenders and pays the reasonable cost thereof. If transcribed, a copy of the record shall be furnished to any other party to the hearing at the request and expense of such other party. If no verbatim record is transcribed, the agency shall prepare minutes of the hearing. The minutes shall consist of a written summary of the evidence and proceedings.

Source: SL 1966, ch 159, § 9 (6); SL 1972, ch 8, § 24; SL 1978, ch 13, § 7.

1-26-23. Basis for findings in contested cases.

Findings of fact shall be based exclusively on the evidence and on matters officially noticed.

Source: SL 1966, ch 159, § 9 (7).

1-26-24. Tentative or proposed decision served on parties--Contents--Waiver.

When in a contested case a majority of the officials of the agency who are to render the final decision have not heard the case or read the record, the decision, if adverse to a party to the proceeding other than the agency itself, shall not be made until a tentative or proposed decision is served upon the parties, and an opportunity is afforded to each party adversely affected to file exceptions and present briefs and oral argument to the officials who are to render the decision. The tentative or proposed decision shall contain a statement of the reasons therefor and findings of fact on each issue and conclusions of law necessary to the proposed decision, prepared by the person who conducted the hearing or one who has read the record. The parties by written stipulation may waive compliance with this section.

Source: SL 1966, ch 159, § 11; SL 1972, ch 8, § 25.

1-26-25. Form, contents and notice of decisions, orders and findings.

A final decision or order adverse to a party in a contested case shall be in writing or stated in the record. It may affirm, modify, or nullify action previously taken or may direct the taking of new action within the scope of the notice of hearing. It shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. If, in accordance with agency rules, a party submitted proposed findings of fact, the decision shall include a ruling upon each proposed finding. Parties shall be notified either personally or by mail of any decision or order. Upon request a copy of the decision or order shall be delivered or mailed forthwith to each party and to his attorney of record.

Source: SL 1966, ch 159, § 12; SL 1978, ch 13, § 8.

1-26-26. Ex parte communications by agency personnel in contested cases--Investigating officer disqualified from decision making--Authorized communications.

Unless required for the disposition of ex parte matters authorized by law, members of the governing board or officers or employees of an agency assigned to render a decision or to make findings of fact and conclusions of law in a contested case may not communicate, directly or indirectly, in connection with any issue of fact, with any person or party, nor, in connection with any issue of law, with any party or the party's representative, except upon notice and opportunity for all parties to participate. If one or more members of a board or commission or a member or employee of an agency, who is assigned to render a decision in a contested case, took part in an investigation upon which the contested case is based, the member or employee may not participate in the conduct of the hearing nor take part in rendering the decision on the contested case. However, the member or employee may appear as a witness and give advice as to procedure. If, because of the disqualification, there is no person assigned to conduct the hearing or render the decision, the agency shall appoint a person to fulfill those duties. A person assigned to render a decision:

- (1) May communicate with other members of the agency; and
- (2) May have the aid and advice of one or more personal assistants.

Source: SL 1966, ch 159, § 13; SL 1974, ch 16, § 9; SL 1975, ch 17, § 10; SL 2015, ch 4, § 2.

1-26-27. License proceeding treated as contested case.

When the grant, denial, or renewal of a license is required to be preceded by notice and opportunity for hearing, or an applicant, a party or an agency requests a hearing, the provisions of this chapter concerning contested cases apply.

Source: SL 1966, ch 159, § 14 (1); SL 1973, ch 10.

1-26-28. Extension of existing license or right to continue activity extended during renewal or licensing proceedings and for ten days following notice of determination.

If a licensee has made timely and sufficient application for renewal of a license or a new license with reference to any activity of a continuing nature, the existing license, or a right to continue the activity, does not expire until the application has been finally determined by the agency and for ten days following receipt, or failure to accept delivery, of notice of such determination by the licensee.

Source: SL 1966, ch 159, § 14 (2); SL 1988, ch 14, § 1.

1-26-29. Notice and hearing required for revocation or suspension of license--Emergency suspension.

No revocation, suspension, annulment, or withdrawal of any license is lawful unless, prior to the institution of agency proceedings, the agency gave notice by mail to the licensee of facts or conduct which warrant the intended action, and the licensee was given an opportunity to show compliance with all lawful requirements for the retention of the license. If the agency finds that public health, safety, or welfare imperatively require emergency action, and incorporates a finding to that effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action. These proceedings shall be promptly instituted and determined.

Source: SL 1966, ch 159, § 14 (3).

1-26-29.1. Costs of disciplinary hearing.

After conducting a contested case proceeding that results in discipline or censure of a licensee, suspension or revocation of a licensee's license, or denial of a license to an applicant, a professional or occupational board or commission established pursuant to Title 36 may assess all or part of its actual expenses for the proceeding against the licensee or applicant.

Source: SL 1993, ch 18.

1-26-30. Right to judicial review of contested cases--Preliminary agency actions.

A person who has exhausted all administrative remedies available within any agency or a party who is aggrieved by a final decision in a contested case is entitled to judicial review under this chapter. If a rehearing is authorized by law or administrative rule, failure to request a rehearing will not be considered a failure to exhaust all administrative remedies and will not prevent an otherwise final decision from becoming final for purposes of such judicial review. This section does not limit utilization of or the scope of judicial review available under other means of review, redress, or relief, when provided by law. A preliminary, procedural, or intermediate agency action or ruling is immediately reviewable if review of the final agency decision would not provide an adequate remedy.

Source: SL 1966, ch 159, § 15 (1); SL 1972, ch 8, § 26; SL 1977, ch 13, § 12; SL 1978, ch 13, § 9; SL 1978, ch 15.

1-26-30.1. Right of appeal when agency fails to act in contested case.

The failure of any agency to make and file a decision within a period of thirty days after any matter has been finally submitted to it, entitles a person authorized to appeal from the record then existing as if the decision had been made adversely to him in whole or in part, unless within such time the agency shall make and serve upon all the parties to the record, an order extending such time for an additional period of not to exceed sixty days, which order shall state the grounds or reasons why such extension is necessary. At the expiration of the thirty days or the time to which extended by such order, such person may present to the agency a proposed decision, and if the same is not adopted within five days after presentation for filing, such person may appeal the same as if such proposed decision had been denied. This section does not apply to contested cases determined by the Public Utilities Commission.

Source: SDC 1939 & Supp 1960, § 33.4202; SDCL, § 21-33-2; SL 1972, ch 8, § 27; SL 1975, ch 17, § 2; SL 1986, ch 27, § 3.

1-26-30.2. Appeal from final action in contested case.

An appeal shall be allowed in the circuit court to any party in a contested case from a final decision, ruling, or action of an agency.

Source: SL 1975, ch 17, § 1.

1-26-30.3. Conduct of appeals.

Notwithstanding any other provision of law, all appeals authorized by § 1-26-30.1 or 1-26-30.2 shall be taken and conducted pursuant to the provisions of this chapter.

Source: SL 1975, ch 17, § 2.

1-26-30.4. Scope of sections on appeals to circuit courts.

The sections of this chapter on appeals to circuit courts shall govern civil appeals to the circuit courts of South Dakota from final decisions, rulings, or actions of agencies pursuant to chapter 1-26.

Source: Supreme Court Rule 82-35.

1-26-30.5. Suspension of sections on appeals to circuit courts.

In the interest of expediting decisions in cases of pressing concern to the public or to litigants, or for good cause shown, the circuit court may suspend the requirement or provisions of these rules on application of a party or on its own motion and may order proceedings in accordance with its direction.

Source: Supreme Court Rule 82-35.

1-26-31. Notice of appeal--Time for service and filing.

An appeal shall be taken by serving a copy of a notice of appeal upon the adverse party, upon the agency, and upon the hearing examiner, if any, who rendered the decision, and by filing the original with proof of such service in the office of the clerk of courts of the county in which the venue of the appeal is set, within thirty days after the agency served notice of the final decision or, if a rehearing is authorized by law and

is requested, within thirty days after notice has been served of the decision thereon. Failure to serve notice of the appeal upon the hearing examiner does not constitute a jurisdictional bar to the appeal.

Source: SDC 1939 & Supp 1960, § 33.4208; SL 1966, ch 159, § 15(2); SDCL, § 21-33-5; SL 1972, ch 8, §§ 28, 32; SL 1974, ch 16, § 10; SL 1975, ch 17, § 3; SL 1979, ch 8, § 4; SL 1999, ch 7, § 1; SL 2004, ch 23, § 1. 1-26-31.1. Venue of appeal.

The venue of the appeal is as follows:

- (1) If the appellant is a resident of this state, to the circuit court for the county of the appellant's residence or to the circuit court for Hughes County, as the appellant may elect;
- (2) If the appellant is a nonresident or a foreign corporation, to the circuit court for the county of appellant's principal place of business in South Dakota or to the circuit court for Hughes County as the appellant may elect;
- (3) The parties may stipulate for venue in any county in the state, and the circuit court for such county shall thereupon hear the appeal;
- (4) An appeal from a final decision, ruling, or action rendered by an administrative appeals process adopted by a home-rule municipality shall be appealed to the circuit court in which the home-rule municipality is located.

Appeals from a single administrative action may not proceed in more than one county. If multiple appeals of a single action are filed in more than one county, the appeals shall be consolidated and heard in the county in which the appeal is first filed. If more than one appeal is first filed on the same date and a stipulation among the parties as to venue cannot be reached, the venue of the appeal is in the circuit court for Hughes County.

Source: SDC 1939 & Supp 1960, § 33.4207; SDCL § 21-33-7; SL 1975, ch 17, § 5; SL 1983, ch 8, § 1; SL 2004, ch 24, § 1; SL 2012, ch 7, § 2.

1-26-31.2. Contents of notice of appeal.

The notice of appeal shall contain the names of the parties and the county to which the appeal is taken; it shall designate in plain and concise language the order or decision from which the appeal is taken; and it shall be dated and signed by the appellant or his attorney.

Source: SDC 1939 & Supp 1960, § 33.4209; SDCL, § 21-33-6; SL 1975, ch 17, § 4; SL 1977, ch 13, § 13. 1-26-31.3. Change of venue.

The circuit court to which the appeal is first taken may, upon good cause shown and upon such terms or provisions for expense as it may deem reasonable in favor of any party objecting, and on application and notice within thirty days after the appeal is taken, change the venue to the circuit court for any other county.

Source: SDC 1939 & Supp 1960, § 33.4207; SDCL, § 21-33-8; SL 1975, ch 17, § 6; SL 1999, ch 8, § 1; SL 2000, ch 5, § 1.

1-26-31.4. Contested cases--Statement of issues on appeal.

Within ten days after the filing of the notice of appeal as required by § 1-26-31, the appellant shall file with the clerk of the circuit court a statement of the issues the appellant intends to present on appeal and shall serve on the other parties a copy of that statement. If any other appellant wishes to raise additional issues on appeal, the other appellant shall file a statement of additional issues on appeal within ten days after service of the appellant's statement.

Source: Supreme Court Rule 82-35; SL 2008, ch 280 (Supreme Court Rule 07-01), eff. Jan. 1, 2008; SL 2019, ch 4, § 1.

1-26-32. When agency decision in contested case becomes effective--Application for stay pending appeal--Time--Granting of further stay--Security or other supervision--Inapplicability to determinations of benefits under Title 61.

Any agency decision in a contested case is effective ten days after the date of receipt or failure to accept delivery of the decision by the parties. An application to the circuit court for a stay of the agency's decision may be made only within ten days of the date of receipt or failure to accept delivery of the agency's decision. Upon receiving a timely application for a stay and notice of hearing thereon, the court may enter a temporary stay pending a hearing on the application. Following a hearing, the court may order a further stay, pending final decision of the court. The court, as a condition to granting a stay, may require the appellant to furnish a bond or other such security or order supervision as the court may direct to indemnify or protect the state or agency or any person from loss, damage, or costs which may occur during the stay. This section does not apply to determinations of benefits made by the Department of Labor and Regulation pursuant to Title 61.

Source: SDC 1939 & Supp 1960, § 33.4215; SL 1966, ch 159, § 15 (3); SDCL § 21-33-10; SL 1972, ch 8, § 33; SL 1975, ch 17, § 7; SL 1988, ch 14, § 2; SL 1999, ch 7, § 2; SL 2011, ch 1 (Ex. Ord. 11-1), § 33, eff. Apr. 12, 2011.

1-26-32.1. Procedural rules applied.

The sections of Title 15 relating to practice and procedure in the circuit courts shall apply to procedure for taking and conducting appeals under this chapter so far as the same may be consistent and applicable, and unless a different provision is specifically made by this chapter or by the statute allowing such appeal.

Source: SDC 1939 & Supp 1960, § 33.4204; SDCL, § 21-33-13; SL 1975, ch 17, § 8.

1-26-32.2. Request for transcript--Waiver by failure to request.

Within ten days after the filing of the notice of appeal, the appellant shall order from the agency or reporter, if present, a written transcript of the proceedings or such parts thereof as he deems necessary of the contested case hearing. The order shall be in writing and a copy thereof shall be served on all parties to the action and a copy shall be filed with the clerk of the circuit court. Failure to order a transcript within the ten-day period shall constitute a waiver of the right to such a transcript.

If the appellee deems a transcript of other parts of the proceedings necessary, he shall, within ten days after the service of the appellant's request or statement of issues, file with the clerk of the circuit court and serve upon the appellant a request for a transcript of additional parts to be included in the transcript of the contested case hearing. Failure to order such additional parts of the transcript shall constitute a waiver of the right to such additional parts of the transcript.

Source: Supreme Court Rule 82-35; Supreme Court Rule 89-1A.

1-26-32.3. Costs of transcript--Endorsement of order by reporter--Extension of time for transcript.

At the time of ordering a transcript of the contested case hearing a party, other than an agency, must make satisfactory arrangements with the agency or reporter, if present, for the payment of the costs of the transcript and all necessary copies. The agency or reporter shall acknowledge at the foot of the order receipt of the request for the transcript and transmit the order to the clerk of the circuit court. If the transcript cannot be completed within thirty days, the agency or reporter shall request an extension of time from the circuit court judge assigned to the appeal and the action of the circuit court judge shall be entered on the record and the parties notified.

Source: Supreme Court Rule 82-35; Supreme Court Rule 89-2.

1-26-32.4. Form of transcript--Number of copies--Certification.

The original transcript of the contested case hearing will be filed with the clerk of the circuit court and copies transmitted to the attorney for each party to the appeal separately represented and directly to any parties not represented. The agency will make duplicate copies of items specified in § 1-26-21 that are requested and shall transmit copies to the attorney for each party to the appeal separately represented and directly to any parties not represented. In the event that more than three copies of the transcript and other items as specified in § 1-26-21 are necessary to comply with the foregoing requirement, the

appellant may make application, upon notice, to the circuit court for an order determining the number of copies to be served and the time of use by the parties. Copies of the transcript and items specified in § 1-26-21 may be reproduced by any duplicating or copying process which produces a clear black image on white paper, if a typewritten transcript is prepared. The reporter or agency shall certify the correctness of the original and all copies of the transcript. The agency or reporter shall notify the clerk of the circuit court in writing that the original transcript has been filed and copies transmitted.

Source: Supreme Court Rule 82-35; Supreme Court Rule 89-3.

1-26-33. Record transmitted to circuit court--Limitation of record--Corrections and additions.

Within thirty days after the service of the notice of appeal, or within further time allowed by the court, the agency shall transmit to the reviewing court the electronic copy of the entire record of the proceeding under review. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional costs. The court may require or permit subsequent corrections or additions to the record.

It shall be the duty of the agency to assemble and consecutively number the pages of all documents, papers, and exhibits filed with the agency, including any opinions and decisions which the agency may have filed or authorized for filing. The agency shall then prepare and attach an alphabetical and chronological index to the electronic record and shall serve a copy of such index on all parties to the review proceedings at the time the record is submitted to the reviewing court. If any portions of the record are not legible or are altered when converted to an electronic image they must be provided in hardcopy format.

Source: SL 1966, ch 159, § 15 (4); SL 1977, ch 13, § 14; SL 1987, ch 396 (Supreme Court Rule 86-36); SL 2018, ch 293 (Supreme Court Rule 18-02), eff. July 1, 2018.

1-26-33.1. Transferred to § 1-26-33.6.

1-26-33.2. Time for serving briefs.

Unless otherwise ordered by the circuit court, the appellant shall serve a brief within thirty days after the delivery of the transcript of the contested case hearing to counsel for the parties or to the parties if unrepresented by counsel or within thirty days after the agency record is transmitted to the circuit court pursuant to § 1-26-33, whichever event occurs later. The appellee shall serve a brief within thirty days after the service of the brief of appellant, or in the case of multiple appellants, within thirty days after service of the last appellant's brief. The appellant may serve a reply brief within ten days after service of appellee's brief, or in the case of multiple appellees, within ten days after service of the last appellee's brief. Pursuant to § 15-6-5(d), briefs may not be made a part of the record.

Source: Supreme Court Rule 82-35; Supreme Court Rule 89-4; SL 1999, ch 7, § 3.

1-26-33.3. Brief of appellant--Contents.

The brief of the appellant shall contain under appropriate headings in the order here indicated:

- (1) A jurisdictional statement setting forth the date and the form of the agency decision, ruling or action sought to be reviewed and the date when the notice of appeal was filed with the circuit court.
- (2) A concise statement of the legal issue or issues involved omitting unnecessary detail. Each issue shall be stated as an appellate court would state the broad issue presented. Each issue shall be followed by concise statement of how the agency decided it. Any issue not presented in the brief is deemed waived.
- (3) A statement of the case and facts. A statement of the case shall first be presented identifying the agency and indicating briefly the nature of the case and its disposition by the agency. There shall follow a statement of facts relevant to the grounds urged for reversal, modification or other relief.
- (4) An argument. The argument shall contain the contentions of the party with respect to the issues presented, the reasons therefor, and the citations to the authorities relied on. Each issue shall be separately presented. Needless repetition shall be avoided.
- (5) A short conclusion stating the precise relief sought.

(6) Appendix, if any. Such appendix may include the decision, ruling, or action in question and any regulations or any relevant parts to which the parties wish to direct the particular attention of the circuit court.

(7) Request for oral argument, if desired.

Source: Supreme Court Rule 82-35.

1-26-33.4. Brief of appellee--Contents.

The brief of the appellee shall conform to the same requirements as the brief of the appellant, except that the jurisdictional statement, statement of the issues or of the case need not be made unless the appellee is dissatisfied with the statements made by the appellant. If a notice of review is filed, the appellee's brief shall contain the issues specified in the notice of review and the argument thereon as well as the answer to the brief of the appellant.

Source: Supreme Court Rule 82-35.

1-26-33.5. Repealed by SL 1996, ch 158, § 44.

1-26-33.6. Speedy hearing and determination.

Upon the filing of the record and other papers in the office of the clerk of the circuit court, it shall be the duty of such court when its attention is called to the matter by the parties, or one of them, immediately to fix a date for hearing, and said cause shall be speedily heard and determined.

Source: SDC 1939 & Supp 1960, § 33.4212; SDCL, § 21-33-15; SL 1972, ch 8, § 34; SDCL Supp 1-26-33.1; SL 1975, ch 17, § 9.

1-26-34. Circuit court may order agency to take additional evidence.

If, before the date set for hearing, application is made to the court for leave to present additional evidence, and it is shown to the satisfaction of the court that the additional evidence is material and that there were good reasons for failure to present it in the proceeding before the agency, the court may order that the additional evidence be taken before the agency upon conditions determined by the court. The agency may modify its findings and decision by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions with the reviewing court.

Source: SL 1966, ch 159, § 15(5); SL 1987, ch 29, § 62.

1-26-35. Nonjury review in circuit court--Proof of irregularities--Oral argument discretionary.

The review shall be conducted by the court without a jury and shall be confined to the record. A trial de novo may not be granted unless otherwise authorized by law, but in cases of alleged irregularities in procedure before the agency, not shown in the record, proof thereon may be taken in the court. The court, upon request, may hear oral argument.

Source: SL 1966, ch 159, § 15 (6); SL 1977, ch 13, § 15; SL 1978, ch 16; SL 1996, ch 158, § 45.

1-26-36. Weight given to agency findings--Disposition of case--Grounds for reversal or modification--Findings and conclusions--Costs.

The court shall give great weight to the findings made and inferences drawn by an agency on questions of fact. The court may affirm the decision of the agency or remand the case for further proceedings. The court may reverse or modify the decision if substantial rights of the appellant have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

- (1) In violation of constitutional or statutory provisions;
- (2) In excess of the statutory authority of the agency;
- (3) Made upon unlawful procedure;
- (4) Affected by other error of law;
- (5) Clearly erroneous in light of the entire evidence in the record; or
- (6) Arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

A court shall enter its own findings of fact and conclusions of law or may affirm the findings and conclusions entered by the agency as part of its judgment. The circuit court may award costs in the amount and manner specified in chapter 15-17.

Source: SL 1966, ch 159, § 15 (7); SL 1972, ch 8, § 29; SL 1977, ch 13, § 16; SL 1978, ch 13, § 10; SL 1978, ch 17; SL 1983, ch 6, § 2.

1-26-36.1. Appellee's right to obtain review.

An appellee may obtain review of a final decision, ruling, or action of any agency which may adversely affect the appellee by filing a notice of review with the clerk of the circuit court within twenty days after service of the notice of appeal. If a statement of additional issues on appeal is filed pursuant to § 1-26-31.4, the notice of review required by this section must be filed within twenty days after the latest statement of additional issues on appeal is filed. The clerk of the circuit court shall not accept for filing such notice of review unless accompanied by proof of service of such notice on all other parties. The notice of review shall specify the decision, ruling, or action of the agency to be reviewed.

Source: Supreme Court Rule 82-35; SL 2019, ch 4, § 2.

1-26-37. Appeal to Supreme Court.

An aggrieved party or the agency may obtain a review of any final judgment of the circuit court under this chapter by appeal to the Supreme Court. The appeal shall be taken as in other civil cases. The Supreme Court shall give the same deference to the findings of fact, conclusions of law, and final judgment of the circuit court as it does to other appeals from the circuit court. Such appeal may not be considered de novo.

Source: SL 1966, ch 159, § 16; SL 1972, ch 8, § 30; SL 1983, ch 6, § 1.

1-26-38. Suspension of provisional rules by interim committee--Hearing on suspension--Filing and duration of suspension.

The Interim Rules Review Committee may, by an affirmative vote of not less than a majority of the members of the committee, suspend provisional rules or rules which have not become effective. To suspend a rule, the committee shall:

- (1) Give the agency which promulgated the rule at least two weeks notice of a hearing on the proposed suspension;
- (2) Hold a hearing, which may be in conjunction with a regular committee meeting. At the hearing, the burden of proof that the rule is necessary and does not violate any constitutional or statutory provision or the legislative intent when authority to promulgate the rule was given, is on the agency;
- (3) File an appropriate resolution of such action with the secretary of state.

The suspension is effective from the date of such filing. A suspended rule shall remain suspended until July first of the year following the year in which it became, or would have become, effective, and may not be enforced during that period.

Source: SL 1966, ch 159, § 17; repealed SL 1972, ch 8, § 36; re-enacted SL 1975, ch 19; SL 1978, ch 13, § 11; SL 2003, ch 17, § 3.

1-26-38.1. Amendment as provisional--Subject to suspension--Effect.

If an agency amends an existing rule, the amendment becomes provisionally effective and subject to § 1-26-38. The effect of suspending a provisionally effective amendment is to return the rule to its form prior to the amendment.

Source: SL 1980, ch 18.

1-26-39. Repealed by SL 1972, ch 8, § 36.

1-26-40. Severability of provisions.

If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the chapter which can be given effect

without the invalid provision or application, and for this purpose the provisions of this chapter are severable.

Source: SL 1966, ch 159, § 18.

1-26-41. Citation of chapter.

This chapter may be cited as the South Dakota Administrative Procedures Act.

Source: SL 1977, ch 13, § 17.

Comments due on trapping otters

By *Staff* on June 10, 2020

By Talli Nauman
Native Sun News Today Health & Environment Editor

The river otter is “a sacred species for us as Lakota people.”

COURTESY / National Wildlife Federation

PIERRE – The South Dakota Game, Fish & Parks Commission is giving the public until June 19 to comment on a draft management plan that would open the first-ever trapping season for the rare native river otter that was reintroduced to the state by the Flandreau Santee Sioux Tribe.

The state governor’s appointed wildlife commissioners recently dropped *Lontra canadensis* from South Dakota’s list of protected species, dismissing public

comment that was all in favor of keeping safeguards established by its 1978 inclusion in the state’s first endangered and threatened list.

The Flandreau Santee Sioux Tribe repopulated this playful semi-aquatic mammal to reservation jurisdiction in South Dakota in 1998-2000. Prized for its pelts, the once-abundant population had vanished due to unregulated take and habitat degradation

during the early 20th Century.

Inquiries to the Santee tribe's wildlife agency and to game officials of several other Sioux tribes in South Dakota failed to raise responses. However, Lower Brule Sioux Tribal Department of Wildlife, Fish and Recreation Biologist Shaun Grassel said the state commissioners and their staff apparently have not consulted his tribe on the matter.

"I am not aware that we (the Lower Brule Sioux Tribe) have been contacted" by the South Dakota Game, Fish and Parks (GFP) regarding state proposals to delist and allow trapping "or to inquire about how their actions might affect our current or future objectives regarding river otters. But that's not surprising," he told the Native Sun News Today.

The otter figures prominently in a Lakota creation narrative preserved by the Akta Lakota Museum & Cultural Center: It is one of four creatures who restored the land after a great flood.

In Nakota oral tradition, the otter earned a hardy winter coat as thanks from a crane whose chick it sheltered from the cold when it hatched too late in the season to migrate south for warmth.

Lakota akicita societies historically have been honored to include otter fur in their regalia.

During the state's May 7 hearings on otter delisting and trapping, Cheyenne River Sioux tribal member and Grandmother Carla Rae Marshall testified on her opposition to delisting and trapping this year.

"Historically, river otters were, and still are, a sacred species for us as Lakota people, as well as for many indigenous nations in North America. In the annals of Societies of the Plains Indians, the river otter is shown to be held in the highest esteem, with more than 40 references found throughout the documentation," she said.

Also testifying, Rapid City resident Susan Braunstein thanked the Flandreau Santee Sioux Tribe for releasing 34 river otters along the Big Sioux River on tribal grounds in Moody County as part of a cultural goal to restore a native species to tribal lands."

She asked: "Why should this beautiful, playful creature die when so much effort has been made to bring them back? Don't we have enough animals that are being trapped or killed? Why should trappers have this much influence over GFP policies?"

She noted that the management plan is “specifically geared to give trappers another species to kill so they can profit from their skin.”

Immediately following these comments and supporting testimony from four other members of the public, the GFP Commission voted unanimously, 8-0, to reject the arguments, opting instead for its staff’s recommendations to remove protections for the otter and to design a trapping season for it.

The staff considers that the Santee Sioux Tribe’s initiative, aided by the otter’s listing as the state’s first threatened species, has resulted in “a conservation success story,” as noted in the proposed [“South Dakota River Otter Management Plan, 2020-2029.”](#)

Staff’s proposal, now open for comment, affirms that the hunting season will “enhance the quality of life for current and future generations by getting families outdoors.”

It also argues that “a statewide season will provide harvest information from across the state,” serving as “a monitoring effort that would be difficult to obtain otherwise.”

The GFP has no hard numbers on the otter population. It estimates less than 50 reports a year of its presence and says that it has received an average of 16.6 incidentally trapped otters in each of the last five years (2015-2019). Trappers are required to surrender this accidental catch, but no fines are levied.

The department proposes a maximum of 15 licenses during a Nov. 1-Dec. 31 initial otter trapping season in 2020. Again, incidental catch would not be motive for a fine.

Otters typically are caught by accident in beaver traps during that same season and die from drowning after being trapped in jaws of underwater cages.

“Allowing a limited level of harvest will allow better utilization of those river otter caught incidentally,” the proposed plan claims.

The season would be open statewide, unless arguments for prohibiting otter licenses from the Missouri River westward convince commissioners to modify the trapping proposal.

Those arguments are based on concerns over the comparatively fewer sightings and limited suitable habitat in West River, animal welfare, recreational interest, and economics.

Outdoor enthusiasts currently pay \$130 per person for guided tours to view river

otters, Rapid City career naturalist Christine Sandvik testified at a GFP Commission meeting June 4. By comparison, a furbearer trapping license brings in \$30 of revenue to the state.

Other Rapid City commenters on May 7 agreed that the tourism economy would benefit more from observation than from hunting opportunities capped at 15 licenses. A number of states harbor operations where visitors pay to swim with otters and other types of educational encounters with them.

“It is time this agency realizes the majority of people want to see wildlife, not kill it,” testified Julie Anderson. If the otters’ population is increasing, the comeback should be cause for promoting hiking, biking and photography opportunities, she said.

“We love to see creatures in their natural habitat and oppose the killing,” said Sondra Seberger.

Jim Peterson noted that the otter’s conservation requires clean water, but the majority of its South Dakota habitat is increasingly polluted and in litigation for violation of the Clean Water Act. “I don’t think those things have been taken seriously in consideration” of the otter management plan, he said.

Nancy Hilding, president of the Prairie Hills Chapter of the National Audubon Society, submitted testimony advocating that the otter to be reintroduced to more of western South Dakota before it is targeted for trapping. Feasibility studies for such reintroduction have been done at least as far back as 2003.

Expert analysis performed for the GFP by Wayne E. Melquist, Ph.D. supports reintroduction in the Little White River at Crazy Horse Canyon on the Rosebud Sioux Indian Reservation, among other Western South Dakota locations that provide favorable habitat due to open water year-round.

Written comments on the plan can be sent to 523 E. Capitol Ave., Pierre, S.D. 57501, or emailed to OtterPlan@state.sd.us Comments must be received by June 19 and include your full name and city of residence.

Following the same rules, individuals also can provide written comments on the proposal by filling out an online [form](#).

(Contact Talli Nauman at talli.nauman@gmail.com)

**NOTICE OF CONTINUED PUBLIC HEARING
DEPARTMENT OF GAME, FISH AND PARKS**

A continued Public Hearing will be held at the Ramkota RiverCentre in Pierre, South Dakota, on December 7, 2006, at 2:00 o'clock P.M., to consider adoption, amendment and repeal of Rules pertaining to:

1. Amend ARSD 41:10:02 – Endangered and Threatened Species.

Effect: The proposed amendments would delist the Central Mudminnow (*Umbra limi*) from the List of Endangered Fish; delist the Trout-perch (*Percopsis omiscomaycus*) from the List of Threatened Fish; delist Blandings Turtle (*Emydoidea blandingii*) from the List of Endangered Reptiles; and change the status of Sicklefin Chub (*Macrhybopsis meeki*) from threatened to endangered.

Reason: Central Mudminnow: Central mudminnow is on the periphery of its range in northeastern South Dakota but known populations appear secure. The species is common and widespread in northern and central Minnesota and has no special protection status. Viable populations have been documented in recent years at historic stream locations. Habitat preference is boggy and marshy lakes in lentic environments. Documented populations in Waubay and Blue Dog Lakes may fluctuate as high water during 1990s has resulted in changing lake characteristics.

Trout-perch: The trout-perch is on the periphery of its range in eastern South Dakota. The species is common and widespread in Minnesota where it has no special protection status. Historically, the trout-perch was documented in Lake Kampeska and the Big Sioux River in South Dakota. Recently the species has been documented at multiple locations within the Big Sioux River, Lakes Kampeska and Pelican, and several eastern tributaries to the Big Sioux River.

Sicklefin Chub: The sicklefin chub is endemic to the Missouri River and lower Mississippi River, similar to the pallid sturgeon. Prior to impoundment of the Missouri River in

South Dakota, records indicated the sicklefin chub was present from Sioux City upstream to the Grand River confluence. Since that time, only two individual sicklefin chubs have been collected in South Dakota. One individual was collected in 1996 near Burbank, South Dakota during the Benthic Fish Study, a large 4-year study designed to document the benthic fish assemblage of the entire Missouri River. The other individual fish was collected in October 2005 by South Dakota Game, Fish and Parks staff during the pallid sturgeon assessment project.

Blanding's Turtle: There are only three records of Blanding's turtle in South Dakota; Minnehaha County in 1963; Yankton County in the 1970s and Turner County in 1996. Only the Minnehaha County record is documented, since a specimen was collected. This record marked a range extension for the Blanding's turtle in North America. SDGFP contracted with several herpetologists to survey for this species in eastern South Dakota from 2001 to 2005, and no Blanding's turtles were found. The lack of records indicates that any record in the state is probably due to migration from Minnesota, with little likelihood that these turtles remain and reproduce in South Dakota. If removed from the state list, this species will continue to be protected from exploitation. They are protected from commercial (bait) harvest by bait dealers, anglers are limited to two per day and four in possession, and this species will continue to be monitored by the South Dakota Natural Heritage Program.

The GFP Commission ordered that the hearing to consider the above described amendments originally scheduled for November 16, 2006, at 10:00 A.M., as set forth in the original notice published in this matter be continued in order to comply with the requirement of SDCL 34A-8-5(3) that the GFP Commission afford the public and interested parties with at least thirty (30) days following publication of the original notice in which to submit data, opinions, arguments and their views either orally or in writing (or both), to the proposed amendments to the list of Endangered and Threatened Species.

The proposed rules may be modified or amended after the continued Hearing to include or exclude matters that are described in this Notice of Continued Public Hearing. The hearing may be continued from time to time until its business has been completed and may be rescheduled.

Interested persons will be given reasonable opportunity to submit data, opinions, arguments and their views, either orally or in writing (or both) at the continued Hearing. Persons unable to attend the continued Hearing may mail data, opinions, arguments, and their views to the office of the Secretary of the Department of Game, Fish and Parks, Foss Building, 523 East Capitol, Pierre, South Dakota 57501, or transmit by E-Mail to chuck.schlueter@state.sd.us. All persons who desire to submit written data, opinions, arguments, and their views by mail or E-Mail are encouraged to mail or transmit the same in sufficient time so that it is received by and in the office of the Secretary of the Department of Game, Fish and Parks on or before 12:00 o'clock P.M. three (3) days prior to the date of the continued Hearing. Interested persons will be given reasonable opportunity to submit data, opinions, arguments and their views, either orally or in writing (or both) to the Commission for its consideration. All written and E-Mail comments must include the commenter's name and mailing address.

Copies of the proposed rules may be requested from the office of the Secretary of the Department of Game, Fish and Parks, Foss Building, 523 East Capitol, Pierre, South Dakota 57501. Handicapped persons may contact the undersigned for assistance.

Dated this _____ day of November, 2006.

Comment Letter # 1 on proposed 2020 Otter Trapping Season

Dear Commission,

The SD GFP Commission should not go forward with the proposed trapping season. It is tiered to an adoption of the river otter delisting rule that was done in violation of the public notice requirements found in SD's Endangered Species Act (SDCL - Chapter 34A-8). SDCL 1-26-4 (3) normally requires twenty days advance public notice, but SDCL 34A-8-5 (3) is more stringent and adds ten more days.

SD Game, Fish and Parks public noticed the May 7th meeting/hearing in three papers, 23 days in advance of the hearing. April 15th was the date it was published in the Aberdeen paper, the Water Town Public Opinion and the Rapid Journal. April 16th was the date it was published in the Capitol Journal. It was sent to the Mitchell paper, but GFP received no response from them confirming the publish date.

The proposal for the river otter's delisting was first approved at the GFP Commission's meeting held on March 5-6, 2020 -- as a proposal to move forward to later rule making. Discussion of a proposal at a Commission meeting and publication of March minutes in the April Commission Book (which would have placed on the website just prior to the April 4th & 5th Commission meeting) does not constitute public notice. Public notice for rule making is defined in ***SDCL 1-26-4.1***

The explanation of what a public notice is, occurs in Chapter 1-26:

SDCL 1-26-4.1. Notice of hearing on proposed rule--Contents--Publication--Mailing.

The notice of a public hearing of an agency's intent to adopt, amend, or repeal a rule shall be published in a manner selected to notify persons likely to be affected by the proposed rule. At a minimum the notice of the public hearing shall be published in at least three newspapers of general circulation in different parts of the state. The provisions of chapter 17-2 do not apply to notices required by this section.

The notice of a public hearing or the notice of intent to adopt an emergency rule shall be mailed to each person who has made a timely request of the agency for advance notice of its rule-making proceedings.

A notice of hearing or a notice of intent to adopt emergency rules shall contain a narrative

description of the effect of the proposed rule and the reasons for adopting the proposed rule. A notice of hearing shall also state where and when the hearing will be held, how amendments, data, opinions, and arguments may be presented, the deadline to submit written comments, and how the public may obtain copies of the proposed rule.

Source: SL 1972, ch 8, § 6; SL 1975, ch 16, § 13; SL 1976, ch 15, § 2; SL 1977, ch 13, § 5; SL 1978, ch 13, § 2; SL 1984, ch 9, § 1; SL 1986, ch 20, § 2; SL 2009, ch 9, § 3; SL 2017, ch 7, § 3. *(Emphasis added)*

SDCL 34A-8-5 (3) requires thirty days of public notice before the Commission may add or remove a species from the endangered species list:

34A-8-5. Notice by commission of proposed actions--Time allowed for comment. The Game, Fish and Parks Commission may not add a species to nor remove a species from any list pursuant to

§ 34A-8-3 or 34A-8-4, until it has:

(1) Published a public notice of such proposed action;

(2) Notified the Governor of any state sharing a common border with this state and in which the subject species is known to exist that such action is being proposed;

(3) Allowed at least thirty days following publication for comment from public and other interested parties.

Source: SL 1977, ch 335, § 3. (EMPHASIS ADDED)

GFP has in the past admitted it must provide 30 days notice for listing/delisting threatened or endangered species. In November/December of 2006, the Game, Fish and Parks Commission continued the November hearing on delisting and up-listing of various threatened or endangered species, because they failed to provide 30 days notice. Here is a quote from the Commission's public notice for the December 2006 Commission meeting:

"The GFP Commission ordered that the hearing to consider the above described amendments originally scheduled for November 16, 2006, at 10:00 A.M., as set forth in the original notice published in this matter be continued in order to comply with the requirement of SDCL 34A-8-5(3) that the GFP Commission afford the public and interested parties with at least thirty (30) days following publication of the original notice in which to submit data, opinions, arguments and their views either orally or in writing (or both), to the proposed amendments to the list of Endangered and Threatened Species. " (Emphasis added)

We also express concern as to whether SD GFP has consulted with the USFWS (who owns properties in SD on which SD's river otter's occur), the Governors of neighboring states or the tribes of SD on whose lands/waters the river otter currently or has historically occupied. We believe that someone at GFP said they had talked to Flandreau Santee and Sisseton Wahpeton Oyate Sioux Tribes about river otters, we are not sure if the outreach was on delisting and at the level of consultation. We are not sure if other tribes were consulted. Rosebud Sioux Tribe has property along the Little White River, which has been identified as a potential re-introduction surface water and has had either verified or unverified otter breeding in the past. Cheyenne River and Oglala Sioux Tribe have property adjacent to rivers identified as potential reintroduction rivers. Other tribes may have had verified or unverified sightings in the past, especially near the confluence of tributaries with the

Missouri River. Below are some SD laws requiring consultation and SDCL 34A-8-5 requires consultation with neighboring governors.

34A-8-3. Lists of endangered and threatened species promulgated--Basis for determination.

On the basis of determinations pursuant to § 34A-8-2 the Game, Fish and Parks Commission shall promulgate a list of those species of wildlife which are determined to be endangered or threatened within the state. The Game, Fish and Parks Commission shall make these determinations on the basis of the best scientific, commercial, and other data available to them and after consultation, as appropriate, with federal agencies, other interested state agencies, other states having a common interest in the species and interested persons and organizations.

Source: SL 1977, ch 335, § 3. (*Emphasis added*)

[Printer Friendly](#)

1-54-5. Consultation with tribal government regarding state programs.

It is the policy of the state to consult with a tribal government regarding the conduct of state government programs which have the potential of affecting tribal members on the reservation. This section may not be construed to confer any substantive rights on any party in any litigation or otherwise.

**NOTICE OF PUBLIC HEARING
DEPARTMENT OF GAME, FISH AND PARKS**

A Public Hearing will be held via teleconference at phone number 1-866-410-8397, with conference code 5451787643# on May 7, 2020 at 2:00pm (Central) to consider adoption, amendment and repeal of rules pertaining to:

1. ARSD 41:06:22:01 Archery deer hunting season established – Number and type of licenses – Access permits.

Effect: The proposed change would make an allowance for an additional single-tag “antlerless any deer” licenses that would be distributed amongst all municipal archery deer hunting units.

Reason: Some municipalities have worked with the Department to develop urban deer management plans. Archery deer hunting within city limits can help address issues caused by urban deer populations and provide additional hunting opportunities. The proposed allocation of single-tag “antlerless any deer” licenses would be allocated within established municipal archery deer hunting units.

2. ARSD 41:06:22:01.01 Open Units. (Archery Deer)

Effect: The proposed rule would create new units for municipal archery deer hunting units within city limits of certain cities.

Reason: Some municipalities have worked with the Department to develop urban deer management plans. Archery deer hunting within city limits can help address issues caused by urban deer populations and provide additional hunting opportunities. The proposed city limit deer units would allow for an allocation of single-tag “antlerless any deer” licenses.

3. ARSD 41:06:22:02 Restricted areas – Exceptions (Archery Deer)

Effect: The proposed rule change would modify the start date for Lacreek National Refuge and the Sand Lake National Wildlife Refuge.

Reason: To align the respective refuge archery deer seasons with the statewide archery deer season.

4. ARSD 41:06:49:04 Eligibility requirements and restrictions. (Youth Waterfowl)

Effect: The proposed change would modify the age requirement for who would qualify for the youth waterfowl hunting season.

Reason: By modifying the age for those to participate in youth waterfowl hunting season more opportunities will be created for youth to get engaged with the activity.

5. ARSD 41:06:55:01 Special youth pheasant hunting season established

Effect: The proposed change would modify the season dates from “five consecutive days beginning on the first Saturday of October to “9 consecutive days beginning 21 days prior to the third Saturday of October.

Reason: The proposed change expands the opportunity for youth to get into the field earlier and more often. Recruitment of youth is major component of the Department’s strategic plan.

6. ARSD 41:07:03:02.01 South Dakota-Nebraska boundary waters.

Effect: The proposed rule change would limit the harvest of flathead catfish 30 inches or longer to one fish as part of the daily limit.

Reason: Discussions were held with the Nebraska Game and Parks Commission and adding this restriction would put South Dakota’s length limit in line with Nebraska’s.

7. ARSD 41:10:02:04 List of threatened mammals.

Effect: The proposed rule change would remove the River Otter (*Lontra canadensis*) from the list of threatened mammals.

Reason: In 2012, a 5-year plan was written to provide general, strategic guidance for the recovery and sustained management of river otter. As directed in the plan,

recovery criteria were developed to justify removing the species from the state threatened species list when appropriate. Delisting of the otter would be recommended if certain criteria were met. After the department conducted a review of the success of the river otter in comparison to the criteria set, it has been determined that listing is no longer justified.

Interested persons will be given reasonable opportunity to submit data, opinions, arguments, and their views, either orally or in writing (or both) at the hearing. Persons unable to call into the hearing may mail data, opinions, arguments, and their views to the office of the Secretary of the Department of Game, Fish, and Parks, Foss Building, 523 East Capitol, Pierre, South Dakota 57501, or by going to the GFP website at <http://gfp.sd.gov/forms/positions>. All persons who desire to submit written data, opinions, arguments, and their views by mail or email are encouraged to mail or transmit the same in sufficient time so that it is received by and in the office of the Secretary of the Department of Game, Fish, and Parks 72 hours prior to the date of the hearing. Interested persons will be given reasonable opportunity to submit data, opinions, arguments and their views, either orally or in writing (or both) to the Commission for their consideration. All written and email comments must include the name, home town/city, and state of the person submitting the comments.

The above rule proposals are available for review on the internet by going to <https://gfp.sd.gov/commission/information/> and copies of the proposed rules may be requested from the office of the Secretary of the Department of Game, Fish, and Parks, Foss Building, 523 East Capitol, Pierre, South Dakota 57501. Notice is further given to individuals with disabilities that this hearing is being held in a physically accessible place. Any individuals with disabilities who will require a reasonable accommodation in order to participate in the hearing should submit a request to the undersigned at 605.773.3718 or

605.223.7684 (Telecommunication Device for the Deaf).

Dated this 16th day of April, 2020.

CHAPTER 34A-8

ENDANGERED AND THREATENED SPECIES

- 34A-8-1 Definition of terms.
- 34A-8-2 Investigation of wildlife by secretary--Information developed.
- 34A-8-3 Lists of endangered and threatened species promulgated--Basis for determination.
- 34A-8-4 Biennial review of lists of endangered and threatened species--Amendments.
- 34A-8-5 Notice by commission of proposed actions--Time allowed for comment.
- 34A-8-6 Departments to manage, protect, and restore endangered and threatened species.
- 34A-8-7 Programs and agreements for management of endangered species--Prairie dog control on private lands.
- 34A-8-8 Permitting capture of endangered and threatened species--Authorized purposes.
- 34A-8-9 Possession, transportation and sale of endangered and threatened species prohibited--Violation as misdemeanor.
- 34A-8-10 Importation, possession, sale, or purchase of endangered or threatened species under permit, license, or other documentation--Violation as misdemeanor.
- 34A-8-11 Permits for capture or destruction of, wildlife to protect life or property--Violation of permit--Emergency protection of human life.
- 34A-8-12 Repealed.
- 34A-8-13 Legislative approval required for reintroduction of species.

34A-8-1. Definition of terms.

Terms as used in this chapter, unless the context otherwise requires, mean:

- (1) "Endangered species," any species of wildlife or plants which is in danger of extinction throughout all or a significant part of its range other than a species of insects determined by the Game, Fish and Parks Commission or the secretary of the United States Department of Interior to constitute a pest whose protection under this chapter would present an overwhelming and overriding risk to man;
- (2) "Nongame species," any wildlife species not legally classified a game species, fur-bearer, threatened species, or as endangered by statute or regulations of this state;
- (3) "Threatened species," any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range;

- (4) "Wildlife," any nondomesticated animal, whether reared in captivity or not, and includes any part, product, egg, or offspring thereof, or the dead body or parts thereof.

Source: SL 1977, ch 335, § 1.

34A-8-2. Investigation of wildlife by secretary--Information developed.

The game, fish and parks secretary shall conduct investigation on nongame, endangered, or threatened wildlife to develop information relating to population, distribution, habitat needs, limiting factors, and other biological and ecological data to determine management measures necessary to ensure their perpetuation as viable components of their ecosystem and for human enjoyment.

Source: SL 1977, ch 335, § 3.

34A-8-3. Lists of endangered and threatened species promulgated--Basis for determination.

On the basis of determinations pursuant to § 34A-8-2 the Game, Fish and Parks Commission shall promulgate a list of those species of wildlife which are determined to be endangered or threatened within the state. The Game, Fish and Parks Commission shall make these determinations on the basis of the best scientific, commercial, and other data available to them and after consultation, as appropriate, with federal agencies, other interested state agencies, other states having a common interest in the species and interested persons and organizations.

Source: SL 1977, ch 335, § 3.

34A-8-4. Biennial review of lists of endangered and threatened species--Amendments.

The Game, Fish and Parks Commission shall conduct a review of the state list of endangered and threatened species within the period ending July 3, 1979, and every two years thereafter and may amend the list by appropriate additions or deletions.

Source: SL 1977, ch 335, § 3.

34A-8-5. Notice by commission of proposed actions--Time allowed for comment.

The Game, Fish and Parks Commission may not add a species to nor remove a species from any list pursuant to § 34A-8-3 or 34A-8-4, until it has:

- (1) Published a public notice of such proposed action;
- (2) Notified the Governor of any state sharing a common border with this state and in which the subject species is known to exist that such action is being proposed;
- (3) Allowed at least thirty days following publication for comment from public and other interested parties.

Source: SL 1977, ch 335, § 3.

34A-8-6. Departments to manage, protect, and restore endangered and threatened species.

The Department of Game, Fish and Parks and the Department of Agriculture shall perform those acts necessary for the conservation, management, protection, restoration, and propagation of endangered, threatened, and nongame species of wildlife.

Source: SL 1977, ch 335, § 2.

34A-8-7. Programs and agreements for management of endangered species--Prairie dog control on private lands.

The secretary of agriculture and the secretary of game, fish and parks shall establish programs, with legislative approval and may enter into cooperative agreements with federal and state agencies or with private persons as deemed necessary for the management of nongame, endangered, or threatened species. The secretaries shall establish and conduct control programs at state expense on private lands that are encroached upon by prairie dogs from contiguous public lands.

Source: SL 1977, ch 335, § 4.

34A-8-8. Permitting capture of endangered and threatened species--Authorized purposes.

The secretary of agriculture and the secretary of game, fish and parks may permit the taking, possession,

purchase, sale, transportation, exportation, or shipment of species of plants or wildlife which appear on the state list of endangered or threatened species for scientific, zoological, or educational purposes, for propagation in captivity of such fish or wildlife to insure their survival.

Source: SL 1977, ch 335, § 4.

34A-8-9. Possession, transportation and sale of endangered and threatened species prohibited--Violation as misdemeanor.

Except as otherwise provided in this chapter, no person may take, possess, transport, import, export, process, sell, or offer for sale, buy or offer to buy, nor may a common or contract carrier transport or receive for shipment, any species of wildlife or plants appearing on the following lists:

- (1) The list of wildlife and plants indigenous to the state determined to be endangered or threatened within the state pursuant to §§ 34A-8-3 and 34A-8-4.
- (2) The United States list of endangered or threatened native wildlife effective on January 1, 1977.
- (3) The United States list of endangered or threatened foreign wildlife effective on January 1, 1977.
- (4) The United States list of endangered or threatened plants effective on January 1, 1977.

A violation of this section is a Class 2 misdemeanor.

Source: SL 1977, ch 335, § 5; SL 1992, ch 158, § 48.

34A-8-10. Importation, possession, sale, or purchase of endangered or threatened species under permit, license, or other documentation--Violation as misdemeanor.

A species of wildlife appearing on any of the lists enumerated in § 34A-8-9 may enter South Dakota from another state or from a point outside the territorial limits of the United States and may be transported, possessed, sold, and purchased in accordance with the terms of a permit issued pursuant to rules promulgated by the Game, Fish and Parks Commission pursuant to chapter 1-26. However, a person may transport into South Dakota or otherwise possess, sell, or purchase within the state any animal or parts thereof appearing on any of the lists enumerated in § 34A-8-9 that were lawfully taken or acquired in another state or lawfully taken or acquired from a point outside the territorial limits of the United States if the items are accompanied by the appropriate license, documentation, Convention on International Trade in Endangered Species (CITES) permit, or CITES tag. It is a Class 2 misdemeanor to transport, possess, sell or purchase a species of wildlife appearing on any of the lists enumerated in § 34A-8-9 in violation of the conditions of a permit, or to transport, possess, sell, or purchase any part thereof, in violation of the provisions of this section. The provisions of this section do not apply to any captive nondomestic animal of the mammalia class and the products thereof regulated by the Animal Industry Board under Title 40.

Source: SL 1977, ch 335, § 6; SL 1993, ch 256, § 34; SL 2007, ch 236, § 4.

34A-8-11. Permits for capture or destruction of, wildlife to protect life or property--Violation of permit--Emergency protection of human life.

Upon good cause shown and where necessary to alleviate damage to property or to protect human health, endangered or threatened species found on the state list may be removed, captured, or destroyed pursuant to a permit issued by the secretary of game, fish and parks. A violation of the terms of the permit is a Class 2 misdemeanor.

Carnivorous animals found on the state list may be removed, captured, or destroyed by any person in emergency situations involving an immediate threat to human life, provided that the removal, capture, or destruction shall be reported to the secretary or his representative within twenty-four hours of the act.

Source: SL 1977, ch 335, § 7; SL 1992, ch 158, § 49.

34A-8-12. Repealed by SL 1992, ch 158, § 50.

34A-8-13. Legislative approval required for reintroduction of species.

No species that is currently extinct in this state and that has been placed on the threatened or endangered species list pursuant to the federal "Endangered Species Act of 1973," as amended to January 1, 1995, may be reintroduced into this state through action by any federal, state, or local governmental entity, unless the Legislature has specifically enacted legislation naming the species and specifying the manner of reintroduction.

Re: No Trapping of South Dakota's River Otters

First Name	Last Name	City	State	Zip	Message Subject	Message Text	Date Submitted
Janet	Smeltz	Needham	MA	2492	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. You have a historic opportunity to keep this miraculous revival of a species going. Give them more time to increase their numbers. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed. THESE LIVES ARE PRECIOUS, TOO.	07/09/2020

Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed. The numbers are so small, and as guardians of wildlife, our job is to keep them safe and think of future generations. Please do right by the otters.	07/09/2020
Eileen	Cohen	Berkeley	CA	94702	No Trapping of South Dakota's River Otters	Please withdraw plans to trap of South Dakota's river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. I urge you to withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020
Shelly	Blank	Rapid City	SD	57702	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed. Why are you even considering trapping these animals?	06/26/2020

christine	sandvik	Rapid City	SD	57702	<p>No Trapping of South Dakota's River Otters</p> <p>I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. We need to do the same thing on the Western side of the state as well. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. A trapped otter provides entertainment and enrichment for only one person. Hundreds of residents and tourists could enjoy a live otter through wildlife watching and photography. The travel industry is a major industry in South Dakota, and allowing these populations to increase would allow otters to become a tourism resource. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.</p>	06/30/2020
Beth	Lane	Lincolnshire	IL	60069	<p>No Trapping of South Dakota's River Otters</p> <p>I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, and visitors like me, who value these beautiful animals in the wild and don't want to see them cruelly killed. The highlight of my visits to your state is the abundance of wonderful wildlife.</p>	07/09/2020

Peggy	Detmers	Rapid City	SD	57702	No Trapping of South Dakota's River Otters	As a person who has worked as a wildlife biologist here in SD, I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/26/2020
Jerry	Wilson	Vermillion	SD	57069	No Trapping of South Dakota's River Otters	As a former managing editor of South Dakota Magazine, I traveled our state from border to border for many years. I wrote numerous stories about rivers and streams and water issues. I NEVER saw a river otter! Yet, you are proposing to allow 'sport' trapping of this rare species!? Please don't do this. Please allow the healthy return of this native species to South Dakota. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/26/2020
Malinee	Crapsey	Three Rivers	CA	93271	Against Trapping South Dakota River Otters	PLEASE, DO NOT PLAN TO TRAP RIVER OTTERS: South Dakota's otter population has not yet recovered; Trapping of other wildlife still kills otters accidentally; Trapping is brutal, inhumane, uncivilized; and NO ONE needs fur anymore. Please -- don't manage wildlife or indulge unnecessary human activities with such backward-looking plans. Find a better way forward for all.	07/09/2020

A.	K.	Orlando	FL	32806	<p>No Trapping STOP the attacks on wildlife! Hunting, trapping has no place in 2020. Animal species are going extinct every single day. Why don't you care South Dakota??? I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Haley	Friedt	Rapid City	SD	57703	Let's Be Smart Here	I'll make this short and sweet. There's truly no benefit to removing protections from River Otters. People want them for their fur and that's it. They don't pose any issues and they don't even have an overwhelming population. This just seems like a lazy move to keep a few people happy. Please be thoughtful and don't allow protections to be removed.	06/26/2020
Carolyn	Borg	Saint George	UT	84790	Please Oppose Trapping of South Dakota's River Otters	Please oppose and withdraw plans for trapping of South Dakota's tiny river otter population. Otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Up to three quarters of what is caught in a trap is not the target species. For this reason, all trapping should actually be banned, but this is even worse by particularly going after the species that needs the protection. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.</p>	07/09/2020
Bridget	Barron	San Anselmo	CA	94960	<p>No Trapping of South Dakota's River Otters</p> <p>Please withdraw your plans allowing for the trapping of South Dakota's tiny river otter population. I am heartened to know that otters have begun their return. However, officials have confirmed only 40 sightings last year, and nearly all of these sightings came from one part of South Dakota -- the far eastern part of the state. Less than 4 dozen sightings in one part of the state does not indicate that the river otters have made a roaring comeback to South Dakota. Looking back at history, it was trapping that decimated South Dakota's river otter population. River otter numbers did rebound after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. These killings, even if accidental, are disheartening. Trapping remains one of the biggest threats to the otters' recovery. Legalizing trapping will only cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans and people like me who value these beautiful animals in the wild and don't want to see them cruelly killed. Thank you for your time and consideration.</p>	07/09/2020

Sherri	Wiegman	Cheboygan	MI	49721	No Trapping of South Dakota's River Otters	The purpose of my letter is to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. It is wonderful otters have begun their return, but officials confirmed only 40, yes only 40, sightings last year, and nearly all of them came from the far eastern part of the state. I trust you know trapping historically decimated South Dakota's river otter population. Then the otters rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to “accidentally” kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. You need to do what is right and withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans who value these beautiful animals in the wild and don't want to see them cruelly killed. We are planning to head to Colorado via South Dakota this September. If open trapping season is not stopped we will not go through South Dakota and spend our money elsewhere	07/09/2020
Cheryl	McAllister	Gilbert	AZ	85233	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/28/2020
Barbara	St. Clair	Brookings	SD	57006	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

Amanda	Johnson	Yankton	SD	57078	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/26/2020

Cheryl	Maslin	Alameda	CA	94501	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/26/2020
Leslie	epperson	Tucson	AZ	85719	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020
Josiah	Roberts	Colorado Springs	CO	80921	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020

As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020
Emilee	Hendricks	Madison	WI	53703	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	07/09/2020
Paula	Pillatzki	Labolt	SD	57246	No Trapping of South Dakota's River Otters	I'm writing to urge you to withdraw plans for trapping of South Dakota's tiny river otter population. I'm relieved that otters have begun their return. But officials confirmed only 40 sightings last year, and nearly all of them came from the far eastern part of the state. As you know trapping historically decimated South Dakota's river otter population, but they rebounded after reintroduction and protection as a state endangered species. Even so, trappers have continued to accidentally kill dozens of them when trapping for beavers and other wildlife. Trapping remains one of the biggest threats to otters' recovery, and needless to say legalizing trapping would cause further harm. Instead of endorsing otter trapping, I encourage you to educate trappers on common-sense measures to avoid catching otters when trapping for other wildlife. Please — withdraw this plan to open a trapping season. It would benefit only a small minority of trappers at the expense of most South Dakotans, like me, who value these beautiful animals in the wild and don't want to see them cruelly killed.	06/26/2020
